### Revenues

The budgetary revenues of the government for the fiscal year ended March 31, 1962 amounted to \$5,730 million. This is \$35 million or approximately two-thirds of one per cent less than the total of \$5,765 which was forecast in the budget speech of June 20, 1961, and \$112 million or 2 per cent more than the total of \$5,618 million collected in the fiscal year 1960-61.

Tax revenues accounted for \$95 million of the increase over the previous year. The yield from personal income tax was \$82 million more than in 1960-61 reflecting the higher level of incomes during the year, while the yield from corporation income tax was \$75 million less than the 1960-61 collections due to lower corporate profits in 1960. Receipts from the sales tax were \$39 million more, from customs import duties \$36 million more and from excise duties \$18 million more than the comparable amounts in 1960-61.

Non-tax revenues accounted for \$17 million of the increase in revenue. Return on investments were \$24 million higher than the previous year's receipts and post office revenue was \$10 million higher. However, there was a decrease in receipts from other non-tax revenue of \$17 million from the 1960-61 total.

### Expenditures

Budgetary expenditures of the government in the amount of \$6,521 million in 1961-62 were \$106 million or approximately one and two-thirds per cent higher than forecast on June 20, 1961. Approximately \$40 million of the increase in defence expenditures resulted from certain changes in policy made in August 1961. Another factor in the overall increase was the abnormally low crop yields in that year in the prairie provinces which necessitated an increase of \$39 million in statutory payments under the Prairie Farm Assistance Act and also resulted in payments of \$40 million to western grain producers.

## BUDGETARY REVENUES AND EXPENDITURES

Fiscal Years Ended March 31  
Billions of Dollars

Expenditures for defence, which again constituted the largest portion of total expenditures were \$112 million higher than in the previous year. In 1961-62 these expenditures amounted to \$1,650 million or approximately 25 per cent of the total, compared with \$1,538 million or 26 per cent in 1960-61.

Civil or non-defence expenditures were \$4,871 million compared with the 1960-61 total of \$4,420 million, an increase of \$451 million. Expenditures of the Department of National Health and Welfare were \$153 million higher (including increases of \$95 million in the government's contribution under the Hospital Insurance and Diagnostic Services Act, \$40 million in unemployment assistance and \$15 million in family allowances); expenditures of the Department of Transport were \$74 million higher (including \$50 million in interim payments related to the recommendations of the Royal Commission on Railway Problems); expenditures of the Department of Finance were \$52 million higher (including an increase of \$41 million in public debt charges); expenditures of the Department of Labour were \$48 million higher (including increases of \$27 million in payments to provinces authorized by the Technical and Vocational Training Assistance Act and \$15 million in payments under the municipal winter works incentive program); and expenditures of the Department of Veterans Affairs were \$41 million higher (including increases of \$27 million in pension payments for disability or death and \$17 million in war veterans allowances and other benefits).

*Deficit*

The deficit for the fiscal year 1961-62 was \$791 million compared with \$650 million as forecast in the budget speech of June 20, 1961, and the deficit of \$340 million for the fiscal year 1960-61.

## Non-budgetary transactions

A net amount of \$313 million was available during the fiscal year from non-budgetary transactions (excluding unmatured debt transactions). Non-budgetary disbursements and charges totalled \$564 million and receipts and credits amounted to \$877 million. Sums totalling \$481 million were required for loans, investments and working capital advances, and \$83 million for other non-budgetary purposes. Of the total of \$877 million available from various non-budgetary receipts and credits, \$368 million was from the repayment of loans, investments and working capital advances, \$293 million from the net receipts from various government annuity, insurance and pension accounts, and \$216 million from other non-budgetary sources.

## Old age security fund

During 1961-62 pension payments from the old age security fund were \$625 million compared with \$592 million in the previous fiscal year. Accounting for approximately \$20 million of the increase was the increased rate of payment (from \$55 to \$65 per month) effective February 1, 1962. The remainder was due to the increase in the number of recipients in the eligible age group. Tax receipts credited to the fund amounted to \$644 million during the year. The excess of \$19 million in receipts over payments was applied in part to repay the temporary loans made by the Minister of Finance to the fund. As these loans amounted to \$17 million at March 31, 1961, the fund reflected a credit balance of \$2 million as at March 31, 1962.

The transactions in the account during 1961-62 compared with those for the previous fiscal year were as follows:

	Fiscal year ended March 31	
	1962	1961
	(in millions of dollars)	
Pensions payments .....	625	592
Tax receipts .....	644	603

	—	—
Temporary loans outstanding at fiscal year-end .....		17
Balance in fund at fiscal year-end .....	2	
	==	==

## Debt transactions

During 1961-62 the government issued securities amounting to \$3,456 million (excluding the refunding of treasury bills which mature weekly) and redeemed, cancelled or converted issues in the amount of \$2,578 million, resulting in an increase of \$878 million in unmatured debt. However, as other liabilities increased by \$427 million the government's gross public debt increased by \$1,305 million to \$22,908 million at March 31, 1962. During the same period the government's net assets increased by \$514 million to \$9,680 million. As a result, the government's net debt was \$13,228 million at March 31, 1962, the increase of \$791 million being equivalent to the budgetary deficit for the fiscal year.

## Cash position

Receiver General bank balances were \$417 million more at March 31, 1962, than they were at March 31, 1961. This is the amount by which the increase of \$895 million in unmatured debt outstanding in the hands of the public, plus the net amount of \$313 million available from non-budgetary transactions, exceeded the budgetary deficit of \$791 million.

### 3. THE GOVERNMENT'S ACCOUNTING SYSTEM

To assist the reader who is not familiar with the government's financial statements and general system of accounting, a brief outline of some of the more significant features of these and particularly of those aspects which differ from normal commercial accounting practices is given in the paragraphs which follow.

There are two generally accepted bases or systems of accounting. One is the "cash" basis under which revenues are taken into the accounts in the period in which they are received in cash and expenditures are accounted for when the actual disbursements are made; the other is the "accrual" basis under which revenues are accounted for when earned or due, even though not collected and expenditures are accounted for when the liabilities are incurred whether payment is made in that accounting period or not.

Many factors must be considered in determining how the government's voluminous and varied transactions should be recorded and brought into focus in a clear and comprehensive way. In business, the accounts are usually maintained on an accrual basis. However, the prime purpose of government accounting is to serve the requirements of Parliament and more particularly to ensure effective control by Parliament over public moneys. As parliamentary control in Canada is predicated on the operation of the Consolidated Revenue Fund, which is by law a cash account, and on regulating the flow of cash receipts into and cash payments out of the Fund, it follows that the accounts of Canada are maintained basically on a cash system. However, there is provision in the Financial Administration Act for bringing into the accounts of each fiscal year expenditures relating to that year, which on a pure cash basis would be excluded, and in addition certain modifications have been made to facilitate the maintenance of accounting control over certain assets and liabilities, and to provide for valuation adjustments for recorded assets in anticipation of possible losses on ultimate realization.

#### *Revenues and expenditures*

Revenues are reported on a cash basis and consequently taxes assessed and due and other revenues receivable or accrued (including interest accrued) are not normally set up as assets on the government's statement of assets and liabilities.

On the expenditure side, under the provisions of section 35 of the Financial Administration Act, for thirty days after the end of each fiscal year, payments for the discharge of debts properly applicable to the old year may be made and charged to that year. Consequently, liabilities under contracts and other accounts payable at March 31 for which cheques are issued during the month of April are charged as expenditures in the old year and appear as current liabilities on the statement of assets and liabilities. This is a significant modification of pure "cash" accounting, and brings into the year's transactions the greater part of those expenditures which on the cash basis would be excluded, but which on the accrual basis would be included and carried to the statement of assets and liabilities as accounts payable. In other respects the expenditure accounts reflect refinements of the cash basis. For example, discounts and commission on loans are not charged to expenditures in the year in which they are paid, but are set up as deferred charges on the statement of assets and liabilities and are amortized or written off to expenditures during the period of a loan. Also, losses on loans and advances and on other assets are not generally charged to expenditures in the year in which the loss is sustained; instead provision has been made from time to time for a reserve for possible losses on the realization of assets to which the ultimate loss when determined may be charged by parliamentary authority.

Prior to 1951-52, it was the practice to charge interest on the public debt as it became due rather than when it was paid. This was a modification of the strict cash basis of accounting, but in 1951-52 a further modification was made whereby the charges to budgetary expenditures for interest on the public debt were made month by month as the interest accrued rather than annually or semi-annually as it became due and payable. This change is in line with the aim previously mentioned of bringing into the accounts of the year all the expenditures relating to that year. No comparable change in the treatment of interest receivable was made as it was not considered appropriate to accrue interest receivable which might or might not be received or to take it into account in determining the revenues for the year before it was actually received.

These examples will serve to indicate that while revenues are reported on a cash basis, in expenditure reporting significant modifications have been made in the cash basis to achieve many of the advantages which accrual accounting would produce. The practice is essentially conservative in that on the one hand the budgetary liabilities are set up or are otherwise taken into the accounts for the year, and on the other, tax and other revenue assessments, interest accruals (with certain exceptions) and accounts receivable are not treated as assets or taken into revenue until collected.

#### *Assets and liabilities*

Section 64 of the Financial Administration Act directs that the Public Accounts of Canada shall include:

"a statement, certified by the Auditor General, of such of the assets and liabilities of Canada as in the opinion of the Minister are required to show the financial position of Canada as at the termination of the fiscal year."

The assets and liabilities of Canada are set out so as to disclose the amount of the net debt. In 1920, the practice was established of offsetting against the gross liabilities only what were designated as "active" assets in determining the net debt. In the budget speech of May 18, 1920, the following explanation was given by the Minister of Finance:

"Assets which are not readily convertible, as the reserve is convertible, or are not interest producing, are not such assets as ought to be deducted from the gross debt. They are inactive, they are items of such a character as might well be placed in a suspense account. At any rate, whatever may be their future value, however great it may be, they are not assets of such a character as to directly reduce the gross debt any more than the other capital accounts of the country ought to be deducted from it."

Since that time, there has been no fundamental change in the basic structure of the statement or in its main purpose. However, revisions have been made from time to time to improve the form or manner of presentation, and it is believed that to a substantial degree the present statement fulfils the original intention, with consideration being given continually to the possibility of further improvements.

In 1961-62, for the first time, an appendix has been added which shows the Government equity in Crown Corporations as recorded in the accounts of Canada as at March 31, 1962, together with the unrecorded Government equity in the surpluses (less deficits), reserves, etc., of the Crown Corporations at their respective years ended coincident with, or immediately prior to, the fiscal year ended March 31, 1962. Also, in 1961-62, in accordance with the announcement by the Minister of Finance in the budget speech of June 20, 1961, a purchase fund was established to assist in the orderly retirement of the public debt and is maintained under the asset category "Sinking Fund and Other Investments held for retirement of Unmatured Debt".

With certain exceptions, taxes and revenues receivable, revenue and other asset accruals and inventories of materials, supplies and equipment are not recorded as assets (except when

these are held as charges against working capital accounts or revolving funds) nor are public works and buildings or other fixed or capital assets. Following the principle that only realizable or interest- or revenue-producing assets should be offset against the gross liabilities, costs of capital works are charged to expenditures at the time of acquisition or construction. Consequently government buildings, public works, national monuments, military assets (such as aircraft, naval vessels, and army equipment) and other capital works and equipment are recorded on the statement of assets and liabilities at a nominal value of \$1 as the value is not considered as a proper offset to the gross liabilities in determining the net debt of Canada.

On the liabilities side, accrued liabilities (except for interest accrued on the public debt) are not taken into account in determining the obligations of the government. However, under section 35 of the Financial Administration Act, liabilities under contracts and other accounts payable at March 31 if paid on or before April 30 may be charged to the accounts for the year. These are recorded as accounts payable in the "Current and demand liabilities" schedule to the statement of assets and liabilities.

The *liabilities* of the government, as shown in the statement of assets and liabilities include:

- (1) unmatured debt, consisting of bonds and treasury bills;
- (2) current and demand liabilities, including matured debt outstanding, outstanding treasury cheques, interest due and outstanding, interest accrued, accounts payable, non-interest bearing notes payable to international organizations and other obligations payable on demand;
- (3) sundry funds deposited with the Receiver General of Canada or held in trust for various purposes;
- (4) amounts to the credit of various annuity, insurance and pension accounts;
- (5) undisbursed balances of appropriations to special accounts, which, in accordance with the legislation under which they are authorized, are available for expenditures in periods subsequent to the fiscal year in which they are granted;
- (6) amounts due to the government but in respect of which payment has been deferred; these are contra accounts to corresponding items under "Cash in blocked currency", "Loans to, and investments in, Crown corporations", "Loans to national governments" and "Other loans and investments"; and
- (7) suspense accounts, consisting of balances where some uncertainty as to disposition exists.

The *indirect or contingent liabilities* of the government are shown as a special note appearing in the body of the statement of assets and liabilities and are also set out in a detailed supplementary statement.

Offsetting the direct liabilities, and in a measure explaining their existence, as a substantial portion of the total debt is attributable to them, are the government's recorded *assets*. For the most part, these consist of assets which yield interest, profits or dividends, and very liquid assets such as cash and departmental working funds. The principal classes of assets are:

- (1) current assets, including cash, securities held for the securities investment account and departmental working capital advances and revolving funds;
- (2) advances to the exchange fund account for the acquisition of gold and foreign exchange;
- (3) sinking fund and other investments held for retirement of unmatured debt;
- (4) loans to, and investments in, Crown corporations;
- (5) loans to national governments;

- (6) other loans and investments, including loans to provincial and municipal governments, subscriptions to international organizations and a number of miscellaneous advances to veterans and others;
- (7) securities held in trust for various deposit and trust and annuity, insurance and pension accounts and bonds and certified cheques held in connection with contractors' security deposits;
- (8) deferred charges which consist of the unamortized portions of the actuarial deficiencies in the public service superannuation account, the Canadian forces superannuation account, and the Royal Canadian Mounted Police superannuation account representing that portion of the government's liability in respect of these accounts that has not been charged to budgetary expenditure and discounts, commissions, redemption bonuses and conversion premiums on loan flotations remaining to be charged to expenditure;
- (9) suspense accounts;
- (10) capital assets, a category set up to cover capital assets that are charged to budgetary expenditure at the time of acquisition or construction and which are shown on the statement of assets and liabilities at a nominal value of \$1; and
- (11) inactive loans and investments which are not currently yielding interest, profits or dividends.

A reserve for losses on the realization of assets is not shown as a liability but is deducted from the total of the assets.

The excess of the gross liabilities over the recorded net assets is designated as the *net debt* and the transactions affecting it during the fiscal year are set out in a separate schedule to the statement of assets and liabilities. In effect, the net debt is the accumulated overall deficit since Confederation. Prior to the 1954-55 fiscal year it had been the practice to show it as represented by:

- (a) the non-active assets which consisted of expenditures on certain government-owned properties or public works designated as capital in the schedules to the appropriation acts which authorized the expenditures, and those loans and investments which were regarded currently as neither productive of revenue nor readily realizable; and
- (b) the balance of the consolidated deficit account which was the accumulation of the excess of expenditures over revenues since Confederation, exclusive of capital expenditures and other charges to the non-active accounts.

However, as the capital accounts included only those items paid from appropriations designated as capital in annual appropriation acts (and departmental practices varied in this respect), they were not an all-inclusive listing of capital expenditures. Moreover, the non-active schedules included many items of a nature similar to others which had been charged directly to the consolidated deficit account.

In 1954-55, a change was made in the manner of presentation; the classification of the net debt into capital and non-active accounts on the one hand and the consolidated deficit account on the other was dropped from the schedules to the statement of assets and liabilities, although for purposes of historical record a listing was shown as an appendix. In its place a schedule was presented showing the changes in the net debt during the fiscal year due to:

- (a) budgetary transactions; and
- (b) adjustments in respect of prior years' transactions.

The practice adopted in 1954-55 has been continued and the list of items charged to net debt is presented in Appendix No. 11 to this volume.

4. THE BUDGETARY ACCOUNTS

Total revenues were \$5,730 million for 1961-62, \$112 million more than the total for the previous year. Total expenditures were \$6,521 million, an increase of \$563 million over the total for 1960-61. The deficit for the fiscal year 1961-62 was \$791 million compared with \$340 million for the previous year.

As is shown by the preceding table there were month to month variations in both revenues and expenditures during 1961-62. However, it may be noted that although revenues are affected by changes in taxation rates, in the base on which taxes are calculated and in economic conditions generally, the system of paying personal and corporation income taxes on the instalment plan has resulted in a greater degree of continuity and stability in collections and approximately one-half of the year's tax revenues is received during the first half of the fiscal year and the remainder during the second. During 1961-62, of total revenues of \$5,730 million for the year, \$2,735 million or about 48 per cent was received during the first six months and \$2,995 million or 52 per cent in the remainder of the fiscal year.

For expenditures, variation between the first and second halves of the year is usually somewhat more pronounced. Many construction contracts which are normally let in the early part of the year do not come up for payment until some months later, and deficits sustained by Crown corporations and losses incurred in the operation of various agencies and accounts are not known until the end or towards the end of the fiscal year. There is a further factor tending to make expenditures higher in the last half of the fiscal year. Under section 35 of the Financial Administration Act the government's books remain open after March 31 to record expenditures which, although they originate in and are attributable to the current fiscal year, are not actually paid until April, the first month of the following year. In 1961-62 these factors resulted in expenditures in the latter part of the year being somewhat larger than in the early months of the year. Of total expenditures for the year of \$6,521 million, \$2,894 million or about 44 per cent were made in the first six months and \$3,627 million or 56 per cent in the last six months.

As shown in the preceding table, while \$4,821 million or 84 per cent of the revenues for the year had been collected up to the end of January, only \$5,042 million or 77 per cent of the expenditures had been made to that date, and the accumulated budgetary deficit of \$221 million at January 31, 1962 increased to \$791 million at the fiscal year-end.

#### BUDGETARY REVENUES BY MONTHS AND MAJOR SOURCES

For Fiscal Year Ended March 31, 1962

Although both revenues and expenditures varied from month to month, the monthly variations in some categories of revenues and expenditures were greater than in others as may be seen in the data presented in the next two tables.

The table which follows shows the major sources of budgetary revenues by months for the fiscal year 1961-62:

In considering the revenue table it should be noted that moneys in the hands of collectors and in transit on the thirty-first day of March in each fiscal year are treated as revenues of that fiscal year even though they are not deposited in the Receiver General's bank accounts until April. These amounts are shown in the table as receipts in the supplementary period.

Also to be noted is the fact that, commencing with the 1962 tax, the federal government under authority of tax collection agreements with the provinces collects personal income tax on behalf of all provinces except Quebec and corporation income tax on behalf of all provinces except Ontario and Quebec. In the fiscal year 1961-62, taxes thus collected on behalf of the provinces (and excluded from revenues as shown in the revenue table) totalled \$38 million. These were collected during February and March of 1962.

As the preceding table indicates, receipts of personal income tax deducted at the source were considerably lower in the period April to June, 1961 and in March 1962, than they were in other months. In the first three months of 1961-62, this was due largely to payments of refunds of \$130 million to taxpayers which were deducted from the tax collections for those months while March 1962 collections were affected by similar refunds of \$79 million. Receipts in the month of January from deductions at the source have been in recent years somewhat greater than in other months probably due to tax deductions from year-end bonuses. Other collections of personal income tax include taxes paid by instalments, which are usually received in April, July, October and January in each year, as well as amounts paid on the filing of income tax returns; these latter sums are for the most part collected in April and May with May receipts being much the greater. Corporation income tax receipts in the months of May to July, 1961 inclusive were greater than in other months reflecting payments by corporation tax payers to make up the balance of payments due on their 1960 tax liabilities which were underpaid in the first nine months of the period over which their 1960 taxation year payments were spread. In the months subsequent to July, receipts were largely in respect of the 1961

taxation year. Commodity tax receipts, that is, receipts of customs import duties, and sales and other excise taxes and duties, varied from month to month although receipts in the first and second halves of the year did not vary greatly; receipts in the first half of the year were about 48 per cent of the total for the year. As for revenues from all other sources, the large receipts in the month of December 1961, January 1962 and March 1962 were due mainly to returns on investments.

The table which follows shows major classifications of budgetary expenditures by months for the fiscal year 1961-62:

### BUDGETARY EXPENDITURES BY MONTHS AND MAJOR CLASSIFICATIONS

For Fiscal Year Ended March 31, 1962  
Millions of Dollars

From the preceding table it may be seen that certain classes of expenditures appeared to follow clearly defined patterns while others did not. Those expenditures which did show a high degree of monthly regularity were public debt charges, payments to provinces, family allowances and veterans affairs, which accounted for 46 per cent of all non-defence expenditures. Monthly expenditures for public debt charges include the discount on treasury bill issues and the accrual of interest on other unmatured debt and other liabilities, the monthly variations being due largely to treasury bill yields and the number and amount of treasury bill issues. The marked increase in June was due to the charge to interest on public debt of that portion of discounts, applicable to 1961-62, on treasury bills sold in 1960-61. The variation in the monthly payments to the provinces was due principally to subsidies paid in July 1961 and January 1962 and to the adjustment in December 1961 in respect of 1960-61 tax-sharing arrangements. Family allowance payments changed slightly during the year reflecting the change in the number of children in the eligible age groups, while there were only minor monthly variations in veterans affairs expenditures.

The marked increase in expenditures of the Department of Transport in August 1961 was due primarily to the interim payment of \$32 million to railways to maintain freight rates at reduced levels and the increase in the supplementary period was due to the payment of the 1961 deficits of the Canadian National Railways (\$67 million) and Trans-Canada Air Lines (\$7 million) and of contributions of \$10 million to the railway grade crossing fund.

As the preceding table shows all other expenditures varied from month to month. Some of the items causing these variations were (a) a charge in November of \$50 million for Canada's contribution to the Colombo plan fund, (b) payments of \$14 million in February and of \$26 million in March to the western grain producers, (c) payments of \$15 million in February and of \$4 million in March for university grants, (d) payments in March totalling \$10 million to the provinces with respect to vocational training and (e) charges in the supplementary period of \$22 million to cover the loss in the agricultural commodities stabilization account and of \$48 million in respect of the deficit in the prairie farm emergency fund.

## B. REVENUES

Budgetary revenues totalled \$5,730 million in 1961-62 compared with \$5,618 million in 1960-61, an increase of \$112 million or 2 per cent. Tax revenues of \$5,111 million accounted for 89 per cent of the total for the current fiscal year and non-tax revenues of \$619 million accounted for 11 per cent.

## (1) TAX REVENUES

## Tax on personal incomes

In 1961-62 the largest source of government revenue was again the personal income tax. The yield (excluding the old age security tax) was \$1,793 million or 31 per cent of all budgetary revenue. The increase of \$82 million or 5 per cent over 1960-61 collections was due principally to the higher level of personal incomes during the fiscal year.

The tax on personal incomes levied under the Old Age Security Act in the amount of \$259 million was credited to the old age security fund.

Corporation income tax

The corporation income tax (excluding the old age security tax) was \$1,202 million or 21 per cent of government revenue for 1961-62 and was the second largest source of revenue. Collections under this category were approximately \$75 million or 6 per cent less than the comparable total of \$1,277 million for 1960-61. This decrease was due mainly to lower corporate profits for the calendar year 1960 upon which corporation income tax collections in 1961-62 were largely based.

In addition the tax on incomes of corporations levied under the Old Age Security Act in the amount of \$100 million was credited to the old age security fund.

Taxes on dividends, interest, etc., going abroad

Revenue included in this category is derived from taxes withheld on payments of dividends, interest, rents, royalties, alimony and income from estates and trusts made to non-residents. Collections in 1961-62 were \$112 million, an increase of \$24 million over the comparable total for 1960-61. This reflects the removal of exemptions and the increased rate on certain interest and dividend payments to non-residents which were introduced in December 1960.

Excise taxes

Included under this heading are revenues from taxes levied under the Excise Tax Act.

From a revenue standpoint the most important excise tax is the sales tax. In 1961-62 net receipts from this tax (excluding the old age security tax) were \$760 million, \$39 million or 5 per cent more than those for the previous fiscal year.

The tax on sales, levied under the Old Age Security Act, yielded \$285 million which was credited to the old age security fund.

Excise taxes other than sales tax yielded \$262 million, a decrease of 28 million from the 1960-61 receipts. The tax on automobiles yielded \$25 million, \$34 million or 58 per cent less than that received in 1960-61, reflecting the repeal of the tax effective June 21, 1961. Partially offsetting this decrease was an increase of \$14 million in receipts from the tax levied on tobacco products, which was \$208 million in 1961-62 compared with \$194 million in 1960-61.

The increase of \$11 million in refunds of excise taxes was due mainly to refunds of tax paid on automobiles in the hands of dealers on June 21, 1961 when the repeal of the 7½ per cent excise tax on passenger automobiles became effective. These refunds were made to the dealers through the automobile manufacturers.

### Customs import duties

Receipts from this source amounted to \$535 million in 1961-62 compared with \$499 million in 1960-61. The increase of \$36 million, or 7 per cent, reflected the greater volume and value of imports during 1961-62 compared with the previous fiscal year.

### Excise duties

Excise duties are levied on alcoholic beverages and tobacco products. (Additional taxes on tobacco products are levied under the Excise Tax Act referred to above.)

Gross receipts from the duties on alcoholic spirits were \$114 million in 1961-62, \$6 million or 5 per cent more than in 1960-61. Revenues from the duties on beer were \$93 million and from the duties on tobacco products were \$160 million compared with \$91 million and \$150 million respectively in 1960-61.

### Estate tax

Revenue from this source totalled \$85 million in 1961-62, approximately the same as for 1960-61. Although the Dominion Succession Duty Act was replaced by the Estate Tax Act with respect to deaths on or after January 1, 1959, part of the revenue received in 1961-62 was derived from duties assessed under the former Act.

### Other taxes

Revenue under this heading was \$51 thousand in 1961-62, slightly more than was received in the previous year.

## (2) NON-TAX REVENUES

Budgetary revenues other than tax revenues totalled \$619 million in 1961-62, an increase of \$17 million or 3 per cent over the 1960-61 total of \$602 million.

**Return on investments**

Receipts in this category were \$308 million in 1961-62 an increase of \$24 million over the 1960-61 total of \$284 million.

Payments from Crown corporations amounted to \$209 million compared with \$195 million in the previous fiscal year, an increase of \$14 million. Bank of Canada profits paid to the government were \$18 million more than in 1960-61 and receipts from the Central Mortgage and Housing Corporation were \$12 million more. Partially offsetting these increases was a decrease of \$4 million in interest payments received from the Canadian National Railways and a decrease of \$13 million in interest payments from The St. Lawrence Seaway Authority.

This decrease in payments by The St. Lawrence Seaway Authority was due to Order in Council P.C. 1961-1863 dated December 29, 1961 which directed that interest of \$14 million payable on December 31, 1961 by the Authority, as well as interest payable on December 31, 1962 be deferred until December 31, 1963. On that date the total amount of interest so deferred, together with the interest due on that date, will be computed as a single sum and is to be repaid in equal annual instalments calculated by amortizing the said sum, including interest at rates determined by the Minister of Finance, over a period of forty-six years.

Other loans and investments yielded \$99 million an increase of \$10 million over 1960-61 receipts, due mainly to receipts of \$9 million from the purchase fund. This fund was established during 1961-62 to assist in the management of the public debt in accordance with the announcement by the Minister of Finance in the budget speech of June 20, 1961.

### Post office revenue

In 1961-62 gross post office receipts totalled \$214 million but authorized disbursements from revenue for salaries and rent allowances at semi-staff and revenue offices, commissions at sub-offices, transit charges on Canadian mail forwarded through or delivered in foreign countries, etc., in the amount of \$30 million, brought net revenue to \$184 million. In 1960-61 gross receipts were \$202 million, authorized disbursements were \$28 million and net revenue was \$174 million. Receipts from postage were \$11 million higher while salaries and allowances were \$1 million higher resulting in an increase of \$10 million in net post office receipts.

As costs of operating the Post Office Department during 1961-62 (excluding the \$30 million charged to revenue) were \$185 million, net expenditure exceeded net revenue by \$1 million. However, in making this comparison, it is to be noted that the total shown for post office revenue does not reflect any payment for the franking privilege covering parliamentary and departmental mail or for certain miscellaneous services provided for other government departments and agencies, nor does the total shown for operating expenses reflect any charges for premises occupied by the Post Office Department or for certain accounting and miscellaneous services provided by other departments.

### Refunds of previous years' expenditures

During 1961-62, refunds of expenditures made in prior years amounted to \$18 million. This was \$22 million less than the amount refunded in 1960-61.

The Department of National Defence received \$4 million in refunds of advances, \$2 million in refunds resulting from cost audits and refunds of \$3 million in respect of contracts with the United States Government for the supply of defence equipment under an arrangement that when Canada places contracts with the Government of the United States, payments of estimated costs are made to the United States Treasury and if these estimated costs are revised or, if there are reductions in the contracts, the United States Government refunds the excess

payments. The Department of Finance received a repayment of \$2 million from the Province of Ontario in connection with succession duty payments under the tax rental agreements and the Department of Veterans Affairs received \$2 million in refunds of veterans' pensions, allowances and re-establishment credits.

### Other non-tax revenues

Revenues, other than tax revenues, not dealt with in preceding sections totalled \$8 million for 1961-62, approximately the same as the 1960-61 total.

## C. APPROPRIATIONS

Although a major part of the expenses of the public service is defrayed from moneys granted by Parliament in the annual appropriation acts, substantial payments are also made under the authority of other acts, which authorize expenditures out of the consolidated revenue fund for specified purposes and for such definite or indefinite amounts and during such periods of time as the acts may prescribe. The spending authority granted in these annual appropriation acts differs from that granted in "statutory" authorities in that it is usually for a specific

amount and of definite duration and, unless there is provision to the contrary in the vote, any unused balance lapses at the end of the fiscal year for which it was granted, as provided by section 35 of the Financial Administration Act.

The following is a summary of budgetary expenditures under the authority of the annual appropriation acts and various statutory authorities for the fiscal year ended March 31, 1962. A statement in greater detail, classified by departments, is presented on page 168.

In addition an amount of \$29 million was carried forward from 1960-61 for expenditure in 1961-62 in accordance with provisions made in the original appropriations. Disbursements during 1961-62, under the authority of these grants, amounted to \$3,800 million. Consequently \$286 million, or about 7 per cent of the amount provided by the appropriation acts for budgetary expenditures, was unspent at the close of the fiscal year. Of this amount \$247 million lapsed in accordance with section 35 of the Financial Administration Act and \$39 million was available for expenditures in 1962-63 in accordance with provisions of the original appropriations.

Budgetary expenditures during 1961-62 under the authority of statutes authorizing payments from the consolidated revenue fund for specific purposes without further appropriations amounted in the aggregate to \$2,721 million representing approximately 42 per cent of the total of \$6,521 million for all budgetary expenditures. A comparative summary of these statutory expenditures by principal classes is shown in the following table:

<sup>(2)</sup> A contribution of \$40.5 million was made in 1960-61 as provided by Vote 237 of Appropriation Act No. 6, Statutes of 1960.

<sup>(3)</sup> In addition, \$10 million was charged in 1960-61 as provided by Vote 453 of Appropriation Act No. 6, Statutes of 1960 and \$5 million in 1961-62 as provided by Vote 448 of Appropriation Act No. 5, Statutes of 1961.

PRINCIPAL CLASSES OF BUDGETARY EXPENDITURES

Fiscal Years Ended March 31

Millions of Dollars

1. The unshaded areas of the columns in the chart for health, welfare and social security represent pension payments out of old age security fund not charged to budgetary expenditures in the year in which they were paid.  
2. Does not include those payments made to provincial and municipal governments for specific purposes.

D. EXPENDITURES

Budgetary expenditures in 1961-62 amounted to \$6,521 million compared with \$5,958 million in 1960-61, an increase of \$563 million or about 9 per cent.

Defence expenditures which were again the largest category of budgetary expenditures totalled \$1,650 million or 25 per cent of the total. This represented an increase of \$112 million or 7 per cent over the previous year when defence expenditures were \$1,538 million or 26 per cent of total expenditures.

Non-defence expenditures amounted to \$4,871 million, an increase of \$451 million over the 1960-61 total of \$4,420 million. The main items accounting for this increase were increases of \$153 million in expenditures of the Department of National Health and Welfare, of which \$95 million was in respect of the government's contribution under the Hospital Insurance and Diagnostic Services Act and \$41 million was for unemployment assistance; \$74 million in expenditures of the Department of Transport, of which \$50 million was for interim payments related to the recommendations of the Royal Commission on Railway Problems, pending its complete report; \$52 million in expenditures of the Department of Finance, mainly due to an increase of \$41 million in public debt charges; \$48 million in expenditures of the Department of Labour, of which \$27 million was due to payments to provinces under the Technical and Vocational Training Assistance Act; and \$41 million in expenditures of the Department of Veterans Affairs of which \$27 million was for pensions for disability or death.

A comparative summary of budgetary expenditures for the last two fiscal years, classified by departments and principal classifications, is given in the following table:

As statements of accountability to Parliament it is appropriate that the expenditures should be reported on the basis of the classifications adopted in the Appropriation Acts and the Estimates, and so in the accounting statements in subsequent sections of this report and in the analysis of the year's expenditures later in this section of the survey these are the classifications that have been followed. However, analyses of expenditures by function or purpose on the one hand, and by object or type of goods or service acquired on the other, supplement the information contained in statements of expenditures by departmental or administrative units. In the preceding table a classification of expenditures by major function or purpose is presented. For purposes of comparison, expenditures for the four preceding years have been compiled on the same basis.

In the following table a comparative summary of budgetary expenditures by standard objects is presented for the fiscal years 1961-62 and 1960-61. A summarized statement of 1961-62 expenditures by standard objects and special categories as set out in the Estimates and classified by departments is presented in a subsequent section of this volume.

## (1) DEFENCE EXPENDITURES

Defence expenditures which consist of expenditures of the Departments of National Defence and Defence Production were again the largest category of government budgetary expenditures. The total of \$1,650 million for 1961-62 was approximately 25 per cent of the aggregate budgetary expenditures of the government for the year and was \$112 million more than the total of \$1,538 million for 1960-61, when they were 26 per cent of total expenditures.

### National Defence

Expenditures of the Department of National Defence were \$1,626 million in 1961-62. In 1960-61 expenditures were \$1,518 million.

Expenditures for naval, army and air services amounted to \$1,496 million, \$97 million more than the 1960-61 total. Of this increase, \$27 million was attributable to naval services, \$40 million to army services and \$30 million to air services.

Direct charges to mutual aid amounted to \$11 million during 1961-62 compared with \$15 million in 1960-61 and consisted of procurement of equipment for mutual aid and Canada's share of NATO military budgets and infrastructure costs.

Expenditures for defence research and development were \$40 million compared with \$42 million in 1960-61.

The government's contribution to the Canadian forces superannuation account of an amount equal to 1½ times the contributions of permanent services personnel was \$56 million, an increase of \$16 million over the total for the previous year. The increase resulted from a provision of the new act which became effective March 1, 1960 and which authorized the crediting to the superannuation account quarterly, in each fiscal year, such amount, in relation to the total amount paid into the said account during the preceding quarter by way of contributions in respect of current services and past services by contributors, as is specified by the Minister of Finance. The contribution for 1960-61 therefore, was based on a nine-month period from April 1, 1960 to December 31, 1960, inclusive, compared with the contribution for 1961-62 which was based on a twelve-month period from January 1, 1961 to December 31, 1961, inclusive.

Administration and general costs were \$23 million in 1961-62, an increase of \$2 million over the 1960-61 total.

## Defence Production

The total expenditure of \$24 million in 1961-62 for the Department of Defence Production (including expenditures for Defence Construction (1951) Limited and Canadian Arsenals Limited) was \$4 million more than in 1960-61.

Outlays of \$4 million in connection with the government program instituted in 1959-60 of supporting selected defence development programs in order to sustain technological capability in Canadian industry were \$2 million more than in 1960-61. Expenditures of \$2 million in respect of the procurement of capital equipment and works by Canadian Arsenals Limited and the programs under which assistance for the establishment of production capacity and capital assistance is given to private contractors, Crown plants operated on a management-fee basis and Crown corporations undertaking contracts essential to the defence program were approximately the same as the corresponding expenditures in the previous fiscal year.

Administration and general costs amounted to \$18 million in 1961-62 compared with \$16 million in 1960-61.

## Cash outlays for defence

In addition to these budgetary expenditures for defence, there are certain other cash outlays which must be considered in assessing the full effect of the defence program on the economy of Canada.

Section 11 of the National Defence Act provides that materiel, not immediately required for the use of the Canadian defence forces or the Defence Research Board, may be sold to such countries and upon such terms as the Governor in Council may determine. The proceeds of such sales in 1961-62 amounting to \$3 million were credited to a special account to be used for the procurement of materiel. Cash outlays of \$6 million from this account during 1961-62 resulted in a balance of \$1 million at March 31, 1962.

The Department of Defence Production also makes cash disbursements for the procurement of materials for use in the manufacture of defence equipment which are not recorded as budgetary expenditures. For purposes of accounting and control, these amounts are charged to the defence production revolving fund and are treated as assets on the books of the government until they are billed to the Department of National Defence or sold to defence

contractors for use in the manufacture of defence equipment. During 1961-62 purchases of \$18 million exceeded proceeds from sales of \$6 million by \$12 million and the assets of the fund increased by an equivalent amount, resulting in a balance of \$27 million in the account at March 31, 1962.

The following table summarizes the cash outlays for defence for the past two fiscal years:

## (2) NON-DEFENCE EXPENDITURES

### Agriculture

Expenditures of the Department of Agriculture were \$287 million for 1961-62 compared with \$265 million for 1960-61.

Increases of \$39 million in expenditures to cover the deficit in the prairie farm emergency fund and \$6 million in outlays for rehabilitation and reclamation projects were offset partly by the decrease of \$31 million in the net operating loss of the agricultural stabilization board.

Advances of \$48 million made by the Minister of Finance to the prairie farm emergency fund to cover the year's deficit have been charged to budgetary expenditures. The comparable amount in 1960-61 was \$9 million.

The 1961-62 net operating loss of the agricultural stabilization board was \$22 million compared with \$53 million in 1960-61.

### Atomic Energy

Expenditures of the Atomic Energy Control Board and payments to Atomic Energy of Canada Limited were \$35 million compared with \$39 million in 1960-61, a decrease of \$4 million.

Administration expenses of the Atomic Energy Control Board and grants for research and investigation with respect to atomic energy totalled \$1 million, approximately the same as for the previous fiscal year.

During the year under review \$34 million was paid to Atomic Energy of Canada Limited for its research program, \$4 million less than in the previous fiscal year. Of the total, \$26 million was for current operations and maintenance and \$8 million for the construction or acquisition of buildings, works, land and equipment.

In addition, loans in the amount of \$5 million were made to Atomic Energy of Canada Limited during the year. This brought the total of advances covered by obligations or shares of the company to \$66 million at March 31, 1962.

### Canadian Broadcasting Corporation

Payments of \$78 million were made by the government to the Canadian Broadcasting Corporation during 1961-62 compared with \$67 million in 1960-61.

Grants for capital requirements including the replacement of existing capital assets of the radio and television services were \$1 million higher during 1961-62, while grants in respect of the net operating requirements of the radio and television services were \$11 million higher than in the previous fiscal year.

Outlays for the international shortwave broadcasting service were approximately the same as for 1960-61.

### Citizenship and Immigration

Expenditures of the Department of Citizenship and Immigration were \$65 million in 1961-62, an increase of \$4 million over the total for 1960-61.

Administration and general.....	1.1	0.9	0.2
	65.0	61.1	3.9

Outlays for the Indian affairs branch increased by \$4 million during 1961-62 due principally to increases of \$1 million in expenditures for Indian education, \$2 million in outlays for Indian welfare and \$1 million in costs of Indian agencies.

Expenditures of the immigration branch were slightly lower than the previous fiscal year whereas outlays for the citizenship and citizenship registration branches were approximately the same.

### External Affairs

Expenditures of the Department of External Affairs totalled \$96 million in 1961-62, a decrease of \$7 million from the previous year's total.

The principal changes in expenditure as compared with 1960-61 were decreases of \$8 million in contributions to international organizations and \$3 million in assistance to other countries and increases of \$1 million in costs of representation abroad, \$1 million in Canada's assessment for membership in international organizations and \$1 million in expenditures for administration and general.

Administration and general.....	8.8	8.1	0.7
	95.6	103.0	-7.4

Contributions to international organizations decreased by \$8 million during the year due mainly to the fact that 1960-61 expenditures included the following items for which there was no comparable expenditure in 1961-62: (a) \$6 million for the purchase and transfer of wheat flour to assist in the establishment of strategic stock piles of food supplies in member states of NATO; (b) \$2 million for the reimbursement of the agricultural commodities stabilization account for canned pork donated to international relief agencies; and (c) \$2 million to reimburse the agricultural products board account for whole milk powder donated for international relief purposes. Partially offsetting these decreases was an increase of \$4 million in Canada's assessment for the United Nations Congo Ad Hoc account.

## Finance

Expenditures of the Department of Finance amounted to \$1,512 million in 1961-62, an increase of \$52 million over the corresponding total of \$1,460 million in 1960-61.

The main changes were increases of \$41 million in public debt charges, \$6 million in the government's contribution to the public service superannuation account, \$3 million in tax-sharing, subsidy and other payments to provinces, \$2 million in administration expenses of the Comptroller of the Treasury, and \$2 million in the government's share of medical-surgical insurance premiums and a decrease of \$2 million in administration and general costs.

*Government's contribution to the public service superannuation account*

In 1961-62 the government's contribution to the public service superannuation account amounted to \$47 million, an increase of \$6 million over the comparable figure for 1960-61.

*Public debt charges*

In 1961-62 public debt charges were again the second largest item of budgetary expenditure. These charges, which consist of interest on the public debt, the annual amortization of bond discounts and commissions, the cost of issuing new loans and other costs incurred in servicing the public debt, totalled \$839 million in 1961-62 or 13 per cent of all budgetary expenditure, compared with \$798 million or 13 per cent in 1960-61.

The table which follows presents a comparative summary of public debt charges for 1961-62 and 1960-61. Statements in greater detail are presented in Appendices Nos. 6 to 9.

Interest on public debt in 1961-62 amounted to \$803 million, an increase of \$46 million over the 1960-61 total of \$757 million. Interest of \$643 million on unmatured debt was \$30 million higher than in 1960-61 reflecting the increase in unmatured debt. Interest of \$160 million on other liabilities was \$16 million higher due mainly to increases of \$10 million in respect of the public service superannuation account and \$5 million in respect of the Canadian forces superannuation account.

The following table shows the liability as at March 31, and interest charges for the fiscal year ended March 31, for the years 1958 to 1962, inclusive, with respect to unmaturing debt, deposit and trust accounts, and annuity, insurance and pension accounts.

(1) No interest is payable on a portion of these amounts. Interest was paid on \$106.5 million in 1957-58; \$106.3 million in 1958-59; \$102.6 million in 1959-60; \$100.7 million in 1960-61; and \$92.2 million in 1961-62.

(2) No interest is payable on a portion of these amounts. Interest was paid on \$2,639 million in 1957-58; \$3,220.4 million in 1958-59; \$3,480.2 million in 1959-60; \$3,873.6 million in 1960-61; and \$4,162.2 million in 1961-62.

Other public debt charges amounted to \$36 million compared with \$41 million in 1960-61. The decrease of \$5 million was due to a reduction in the cost of annual amortization of bond discounts and commissions.

When considering the magnitude of these public debt charges and the burden they place upon the public treasury, it must be borne in mind that a substantial portion of the debt is attributable to, or is invested in, productive or earning assets. Therefore, in calculating the net burden of the government's annual interest charges, the income derived from loans, investments and other productive assets must be taken into account. For 1961-62 this income totalled \$308 million as shown in the non-tax revenue section under the heading "Return on investments". This amount deducted from the gross total of \$803 million for interest as shown in the above table leaves a net amount of \$495 million compared with a net of \$473 million in 1960-61. Measured as a percentage of the net debt the burden of the net annual interest charges was 3.75 per cent in 1961-62 compared with 3.80 per cent in 1960-61. As a percentage of the gross national product for the calendar year ending within the fiscal year, the relative burden was 1.34 per cent compared with 1.32 per cent in 1960-61.

The following table presents the gross interest charges, the return on investments, the net interest charges, the net debt and the net interest as a percentage of the net debt for the fiscal years ended March 31, 1958 to 1962 inclusive.

*Tax-sharing, subsidy and other payments to provinces*

Payments to the provinces during 1961-62 for statutory subsidies, payments under the Federal-Provincial Tax-Sharing Arrangements Act, additional grants to Newfoundland and the transfer of a portion of income tax receipts from certain public utility companies amounted to \$541 million compared with \$538 million in 1960-61.

Charges to budgetary expenditures in 1961-62 under the federal-provincial tax-sharing arrangements, including adjustments made on account of previous years, were \$2 million less than in 1960-61. The decrease was due to an increase in the relative proportion of personal and corporation income tax attributable to provinces other than Ontario and British Columbia which had the effect of reducing the equalization payments payable with respect to 1961-62 as well as substantially lowering the adjusting payments necessitated by the final calculation of the tax-sharing arrangements payments for 1960-61 which were required to be made by December 31, 1961.

Payments of \$503 million to the provinces under the federal-provincial tax-sharing arrangements in 1961-62 were adjusted by deducting a total of \$1 million from the tax-sharing entitlements of Newfoundland, Prince Edward Island, New Brunswick, Manitoba and Saskatchewan, making a net disbursement to the provinces of \$502 million. These deductions represented recovery of one-fifth of the overpayments made to those provinces under the 1952 tax rental agreements on account of an over-estimation of their population as revealed by the 1956 census. By Memoranda of Agreement with the provinces concerned, the 1952 tax rental agreements were amended to authorize the recovery of the overpayments in equal monthly deductions from the tax-sharing payments to those provinces over the five-year life of the new arrangements. The overpayments are now fully recovered.

Under the 1957 tax rental agreements, the obligation on the renting provinces to abstain from the imposition of personal and corporation income taxes was to lapse on December 31, 1961. As the Government of Canada did not offer to renew tax rental agreements, the former renting provinces have all imposed personal and corporation income taxes effective January 1, 1962. The Government of Canada, in place of the tax rental agreements, offered to enter into tax collection agreements with the provinces whereby Canada would undertake to collect, without charge, the provincial personal and corporation income taxes at rates determined by the provinces, provided that the provincial personal income tax was expressed as a percentage of the federal personal income tax payable and the provincial corporation income tax employed a definition of corporate taxable income identical with the federal definition. To facilitate the imposition of the provincial income taxes, the Income Tax Act was amended in the 1961 session of Parliament to (1) reduce the federal income tax payable by individuals resident in the provinces by 16 per cent in 1962 and by a further one per cent in each subsequent year until the deduction amounts to 20 per cent in 1966, and (2) reduce the federal tax rate on the taxable income of corporations earned in the provinces by 9 percentage points. Canada has entered into agreements to collect the personal income tax, with all the provinces with the exception of the Province of Quebec, and to collect the corporative income tax, with all the provinces with the exception of the Provinces of Ontario and Quebec. With the exception of Saskatchewan and Manitoba, the provinces which have entered into tax collection agreements have imposed personal and corporation income taxes equivalent to the federal withdrawal. The

Provinces of Manitoba and Saskatchewan have imposed personal income taxes at 22 per cent rather than 16 per cent of the federal tax payable and 10 per cent rather than 9 per cent of the taxable income of corporations.

Statutory subsidies at \$24 million for 1961-62 were \$3 million more than in the previous year on account of adjustments arising out of the results of the decennial census.

The amount of public utility tax receipts for transfer to provinces in 1961-62 was \$6 million, an increase of \$2 million over the 1960-61 total. The 1961-62 payments represent the transferable portion of the income tax received from corporations whose main business was the distribution to, or the generation for distribution to, the public of electrical energy, gas or steam for the taxation year 1959. The payments were authorized by Vote 119, Appropriation Act No. 5, Statutes of 1961 and Vote 709, Appropriation Act No. 4, Statutes of 1962.

**Fisheries**

Expenditures of the Department of Fisheries amounted to \$23 million in 1961-62, \$4 million more than in 1960-61.

### Labour

Expenditures of the Department of Labour totalled \$169 million in 1961-62, an increase of \$48 million over the total for 1960-61.

Payments to provinces under the Technical and Vocational Training Assistance Act of \$36 million for the year were \$27 million more than comparable expenditures in 1960-61. This act, which received Royal Assent on December 20, 1960, superseded the Vocational Training Co-ordination Act. The purpose of the act is to provide financial assistance to vocational and technical schools, and training under youth training projects.

Payments to provinces and in respect of Indian bands by the Government of Canada, of amounts not exceeding one-half of the cost of labour engaged on approved winter work projects in the amount of \$24 million were \$15 million more than in 1960-61.

*Unemployment Insurance Act administration and government's contribution*

Expenditures in 1961-62 relating to the act (excluding the government's payment as an employer which is included in the expenditures of the Department of Finance) totalled \$102 million compared with \$97 million in 1960-61.

Unemployment insurance benefit payments are not charged to budgetary expenditures but are paid from the unemployment insurance fund which is financed by equal contributions from employees and employers, by interest earned on investments, and by the government's contribution of an amount equal to one-fifth of the combined employee-employer contributions. Further information in regard to the unemployment insurance fund is given under the liability category "Annuity, insurance and pension accounts".

The government's contribution to the fund for 1961-62 was \$56 million and administrative costs were \$46 million; the corresponding amounts for 1960-61 were \$55 million and \$42 million respectively.

**Mines and Technical Surveys**

Expenditures of the Department of Mines and Technical Surveys amounted to \$68 million in 1961-62, an increase of \$9 million over the total for 1960-61.

Increases in expenditures included \$5 million in higher outlays for surveys and mapping, \$1 million in the expenditures of the geological survey of Canada, \$1 million in costs of the Dominion Coal Board and \$1 million for administrative and general expenses.

**National Health and Welfare**

Expenditures of the Department of National Health and Welfare during 1961-62 were \$1,040 million, an increase of \$153 million over the total for 1960-61.

Outlays for the national health branch were \$367 million in 1961-62, an increase of \$97 million over the previous year's total. The increase was due primarily to the increase of \$95 million in the government's contributions under the Hospital Insurance and Diagnostic Services Act.

During 1961-62 expenditures of the welfare branch increased by \$55 million to \$667 million mainly as the result of increases of \$40 million for unemployment assistance and \$15 million for family allowances

*Government's contributions under the Hospital Insurance and Diagnostic Services Act*

The Hospital Insurance and Diagnostic Services Act, Statutes of 1957, authorized contributions by Canada in respect of programs administered by the provinces, providing hospital insurance and laboratory and other services in aid of diagnosis. In 1961-62 payments were \$284 million compared with \$189 million in 1960-61. The increase of \$95 million was due to: (1) the fact that during 1961-62 all provinces and territories were participating under the agreements for the full fiscal year, whereas during 1960-61 the Province of Quebec and the Yukon Territory participated under the agreements for only three months and nine months respectively; (2) increase in cost to hospitals of insured services; (3) increase in basis of advanced payments to the provinces; and (4) the gradual increase in the number of insured persons.

### *General health grants to provinces*

General health grants to provinces for assistance in hospital construction, general health services and the control of diseases amounted to \$49 million for 1961-62, an increase of \$1 million over the 1960-61 total of \$48 million.

### *Family allowances*

Family allowances are payable in respect of all children under sixteen years of age, resident in Canada, with minor exceptions such as in the case of children of immigrants who must reside in Canada one year before an allowance is payable. The monthly allowance is \$6 if the child is under 10 years and \$8 in the age group 10 to 15. Children of immigrants receive family assistance of \$5 per month during their first year of residence in Canada from the Department of Citizenship and Immigration if during that period they are under sixteen years of age.

Family allowance payments in 1961-62 totalled \$521 million and represented 8 per cent of total expenditures. The increase of \$15 million over the previous year reflects the increase in the number of children in the eligible age groups.

The number of families and the number of children in receipt of family allowance payments in the month of March and the total payments in each of the fiscal years ended March 31, 1958 to 1962, inclusive, are shown in the following table:

*Old age assistance, disabled persons allowances, blind persons allowances and unemployment assistance*

Under the Old Age Assistance Act, the federal government reimburses the provinces by paying 50 per cent of the lesser of \$65 monthly or the amount of assistance given by the provinces in the form of monthly pensions to eligible persons in need who are in the age group 65 to 69. (Under the Old Age Security Act, all persons 70 years and over who satisfy the residence requirements of the act may receive a pension of \$65 per month from the federal government out of the old age security fund). Similarly, the federal government reimburses the provinces under the Blind Persons Act for allowances of not more than \$65 per month to blind persons in need 18 years of age or over by paying 75 per cent of the total payments, and under the Disabled Persons Act by paying 50 per cent of not more than \$65 per month for allowances to disabled persons in need 18 years of age or over. In 1961-62 payments of \$31 million for old age assistance, \$16 million in respect of disabled persons allowances and \$4 million for blind persons allowances were approximately the same as for 1960-61.

Amendments to the Old Age Assistance Act, the Blind Persons Act and the Disabled Persons Act raised the maximum pension towards which the federal government would contribute from \$55 to \$65 per month, effective February 1, 1962. As increased payments are dependent on individual action by each province they did not affect expenditures to a marked degree in the 1961-62 fiscal year. A similar increase was authorized in old age security payments, effective on the same date, through an amendment to the Old Age Security Act.

Under the Unemployment Assistance Act the federal government contributes up to 50 per cent of the cost of unemployment assistance paid by the provinces, subject to certain deductions as set out in the act. All provinces have signed agreements with the federal government. There was an increase of \$41 million in contributions for 1961-62 over those for the previous year.

The following table presents a distribution of these payments to provinces for 1961-62:

### National Research Council, including the Medical Research Council

Expenditures of the National Research Council, including the Medical Research Council, were \$39 million for 1961-62 compared with \$34 million for 1960-61. Increases of \$2 million in expenditures for administration and general and \$3 million in outlays for scholarships and grants in aid of research were the main factors contributing to this increase.

The main changes were increases of \$5 million in expenditures of the national parks branch, \$3 million in outlays of the northern administration branch and a decrease of \$1 million in administration and general costs.

### Post Office

Gross expenditures of the Post Office Department for 1961-62 totalled \$215 million, an increase of \$8 million over the 1960-61 outlay of \$207 million.

Remuneration of postmasters and staffs at revenue and semi-staff offices and certain other authorized disbursements are paid from revenue. These payments, included in the total of \$215 million, were \$30 million for 1961-62, an increase of \$2 million over the comparable total for 1960-61.

### Public Works

Expenditures of the Department of Public Works for 1961-62 amounted to \$189 million, a decrease of \$12 million from the 1960-61 total of \$201 million.

Increases in expenditures of \$2 million for housing, \$2 million in payments to the National Capital Commission, and \$1 million in administration and general costs were more than offset by decreases in expenditures of \$16 million in development engineering services, and \$1 million in outlays for public buildings—construction and services.

The decrease of \$16 million in expenditures of the development engineering services was due mainly to the reduction of \$12 million in contributions to the provinces under the terms of the Trans-Canada Highway Act and the decrease of \$4 million in costs of construction of the Trans-Canada highway through national parks.

Expenditures for public buildings—construction and services were \$1 million less than the comparable figure for the previous fiscal year, due to the decrease in costs of acquisition, construction and improvements of public buildings.

### Royal Canadian Mounted Police

Expenditures of the Royal Canadian Mounted Police were \$61 million for 1961-62, an increase of \$5 million over the 1960-61 total of \$56 million.

	60.5	56.0	4.5

Payments as shown in the table represent gross expenditures; payments received from the provinces and municipalities for police services at \$11 million have been credited to revenue.

The main changes in expenditures were increases of \$4 million for the land, air and training divisions and \$1 million in higher outlays for headquarters administration and national police services and a decrease of \$1 million in the government's contribution to the Royal Canadian Mounted Police superannuation account.

Under an Act of Parliament, effective April 1, 1960, the government's contribution to the Royal Canadian Mounted Police superannuation account is based on the total amount paid into the account by contributors during the preceding quarter while under the old act the government's contribution was based on the total amount paid into the account by contributors during the previous fiscal year. Consequently, the government contributed to the fund in 1960-61 an amount based on payments by contributors during the fiscal year 1959-60 and for the nine-month period April to December, 1960 inclusive. In 1961-62 the government contributed an amount based on the twelve-month period January to December, 1961 inclusive resulting in a decrease in contributions of \$1 million from the previous year.

### Trade and Commerce

Expenditures of the Department of Trade and Commerce were \$40 million for 1961-62, compared with the 1960-61 total of \$22 million.

The increase of \$18 million in expenditure for 1961-62 was due mainly to increases of \$3 million in administration and general costs and \$14 million in outlays of the Dominion Bureau of Statistics mainly on account of the 1961 Decennial Census of Canada.

### Transport

Expenditures of the Department of Transport totalled \$410 million for 1961-62, an increase of \$74 million over the 1960-61 total of \$336 million.

Outlays for air services reflected an increase of \$16 million over the previous year due mainly to increased expenditures of \$7 million by the civil aviation branch, \$7 million by the telecommunications and electronics branch and \$2 million by the meteorological branch.

Expenditures for railway and steamship services, including charges to expenditures in respect of deficits of certain government-owned enterprises, were approximately the same as for the previous year. The 1961 deficit of the Canadian National Railways in the amount of \$67 million charged to expenditure was unchanged from the previous year.

Expenditures of the Board of Transport Commissioners for Canada increased by \$44 million due to interim payments of \$50 million related to recommendations of the Royal Commission on Railway Problems, pending its complete report, to companies as defined in the Freight Rates Reduction Act offset in part by decreases of \$5 million in the government's contribution to the railway grade crossing fund and \$1 million in contributions under the Freight Rates Reduction Act.

Marine services expenditures amounting to \$49 million were \$2 million greater than in 1960-61.

Outlays of the Canadian Maritime Commission amounted to \$10 million, \$3 million more than in the previous fiscal year.

Deficits of government-owned enterprises charged to expenditure (other than the Canadian National Railways) were \$7 million in respect of the Trans-Canada Air Lines compared with \$3 million in 1960-61 and \$2 million in respect of requirements of canals and works entrusted

to The St. Lawrence Seaway Authority compared with \$1 million in 1960-61. Non-active advances to the National Harbours Board in the amount of \$5 million were \$4 million greater than in 1960-61.

Veterans Affairs

Expenditures of the Department of Veterans Affairs amounted to \$333 million for 1961-62, an increase of \$41 million over the 1960-61 total of \$292 million.

## 5. STATEMENT OF ASSETS AND LIABILITIES OF CANADA

## A. SUMMARY

The statement of the assets and liabilities of the government, as certified by the Auditor General, is presented on pages 102 and 103 on a comparative basis, showing the balance of each of the principal classifications of accounts at March 31, 1962, the corresponding balance at March 31, 1961, and the increase or decrease during the fiscal year 1961-62. It is followed by explanatory notes and by detailed schedules of the accounts which are also presented on a comparative basis. A description of the structure and more significant features of the statement of assets and liabilities is given in the section "The Government's Accounting System".

A condensed statement of the assets and liabilities of the Government of Canada at March 31, 1962, and March 31, 1961, with the net increases or net decreases during the fiscal year 1961-62 is presented in the following table:

### B. CHANGES IN PRINCIPAL LIABILITY CLASSIFICATIONS DURING 1961-62

The gross liabilities of the government increased by \$1,305 million during the fiscal year due mainly to increases of \$878 million in unmaturing debt, \$291 million in annuity, insurance and pension accounts, \$87 million in current and demand liabilities, and \$27 million in deposit and trust accounts.

#### Current and demand liabilities

This category consists of obligations of the government payable currently or on demand. During 1961-62 there was a net increase of \$87 million in these obligations bringing the total balance of the category to \$1,234 million at March 31, 1962.

The main changes resulting in the net increase of \$87 million were increases of \$59 million in accounts payable, \$21 million in interest accrued and \$14 million in outstanding cheques, and decreases of \$12 million in non-interest bearing notes and \$10 million in the revaluation adjustment of the Canadian dollar balance in the international monetary fund.

Non-interest bearing notes payable to the international development association and the international monetary fund represent a portion of Canada's subscription to these funds. At March 31, 1962 notes payable to the international development association were \$14 million, \$7 million more than at March 31, 1961 and notes payable to the international monetary fund were \$358 million, \$19 million less than at the previous fiscal year-end.

Accounts payable represent those payments made in April in accordance with section 35 of the Financial Administration Act but which are applicable to the previous fiscal year. Payments made in April 1962 in respect of the fiscal year 1961-62 were \$281 million compared with \$221 million in April 1961 in respect of the fiscal year 1960-61.

	1,234.1	1,147.6	86.5

Outstanding treasury cheques amounted to \$266 million at March 31, 1962 compared with \$252 million at the previous fiscal year-end.

Interest accrued, which represents interest which has accrued on the government's unmatured debt, was \$175 million at March 31, 1962 compared with \$154 million at March 31, 1961. This increase was the result of an increase during the year in the government's unmatured debt.

The revaluation adjustment of the Canadian dollar balance in the international monetary fund which was \$10 million at March 31, 1961 was settled as at April 30, 1961 in accordance with established practice. Subsequent revaluation adjustments in 1961-62 were settled as at January 31, 1962 and consequently there was no outstanding balance in this account at March 31, 1962. Further particulars in this regard may be found under the asset account "Canada's subscription to the international monetary fund" recorded in the category "Other loans and investments".

### Deposit and trust accounts

Sundry funds deposited with, or held in trust by, the Receiver General of Canada for various purposes are recorded in these accounts.

There was a net increase of \$27 million in this category during 1961-62, resulting in a balance of \$267 million at March 31, 1962. The main items constituting this increase were \$38 million credited to the new provincial tax collection agreements account, \$12 million in the Canadian Arsenals Limited pension fund account and a decrease of \$25 million in the United States of America account.

Under the 1957 tax rental agreements, the obligation on the renting provinces to abstain from the imposition of personal and corporation income taxes was to lapse on December 31, 1961. As the Government of Canada did not offer to renew tax rental agreements, the former renting provinces have all imposed personal and corporation income taxes effective January 1, 1962. The Government of Canada, in place of the tax rental agreements, offered to enter into tax collection agreements with the provinces whereby Canada would undertake to collect without charge the provincial personal and corporation income taxes at rates determined by

the provinces provided that the provincial personal income tax was expressed as a percentage of the federal personal income tax payable and the provincial corporation income tax employed a definition of corporate taxable income identical with the federal definition. To facilitate the imposition of provincial income taxes, the Income Tax Act was amended in the 1961 session of Parliament to (1) reduce the federal income tax payable by individuals resident in the provinces by 16 per cent in 1962 and by a further one per cent in each subsequent year until the deduction amounts to 20 per cent in 1966, and (2) reduce the federal tax rate on the taxable income of corporations earned in the provinces by 9 percentage points. Canada has entered into agreements to collect the personal income tax, with all the provinces with the exception of the Province of Quebec, and to collect the corporation income tax, with all the provinces with the exception of the Provinces of Ontario and Quebec. With the exception of Saskatchewan and Manitoba, the provinces which have entered into tax collection agreements have imposed personal and corporation income taxes equivalent to the federal withdrawal. The Provinces of Manitoba and Saskatchewan have imposed personal income taxes at 22 per cent rather than 16 per cent of the federal tax payable and 10 per cent rather than 9 per cent of the taxable income of corporations. At March 31, 1962 there was a balance of \$38 million in this account.

Section 4 of the regulations respecting the transfer of pensions of employees of the Canadian Arsenals Limited as approved by P.C. 1961-1657 of November 16, 1961 requires, *inter alia*, that the corporation shall assign to the Minister of Finance, all stocks, bonds, debentures and other securities in the pension fund, together with accrued interest thereon, for liquidation by the Minister and payment into the public service superannuation account on

or before March 31, 1966. The balance of \$12 million in the Canadian Arsenals Limited pension fund account represents the value of these securities not yet liquidated at March 31, 1962.

The United States of America account records moneys received from the government of that country to cover expenditures to be made on its behalf by Canada. At March 31, 1962 the balance in the account was \$12 million compared with \$37 million at March 31, 1961.

### Annuity, insurance and pension accounts

In this category are recorded the amounts to the credit of the various annuity, insurance and pension accounts. There was a net increase of \$291 million in these accounts during 1961-62 due mainly to increases of \$118 million in the public service superannuation account and \$124 million in the Canadian forces superannuation account.

### Unemployment insurance fund

During the year there was a decrease of \$186 million in the unemployment insurance fund. The balance at March 31, 1962 was \$78 million compared with \$265 million at March 31, 1961. Investments in bonds and accrued interest thereon, amounting to \$63 million, brought the funds of the commission on deposit with the government to \$15 million at March 31, 1962 compared with \$18 million at March 31, 1961.

Total expenditures from the fund during the fiscal year were \$458 million, of which \$455 million was benefit payments and \$3 million was interest paid on advances from the government. Total revenues were \$340 million of which \$334 million was contributions and \$6 million was interest earned on investments. This resulted in a deficit for the fiscal year of \$118 million. In 1960-61 expenditures amounted to \$514 million consisting almost entirely of benefit payments. Receipts were \$333 million of which \$330 million was contributions, resulting in a deficit of \$181 million.

During the year the fund repaid in full its advances from the Minister of Finance in the net amount of \$67 million.

#### *Government annuities account*

This account increased by \$36 million during the year reflecting the amount by which premium receipts of \$44 million and interest of \$46 million credited to the account by the government exceeded payments of \$54 million to annuitants and beneficiaries.

#### *Public service superannuation account*

The increase of \$118 million in the public service superannuation account was due mainly to the government's contribution of \$47 million (equal to the estimated current and prior service payments of individuals in 1960-61) and interest amounting to \$61 million credited to the account. The remainder of the increase (\$10 million) was due to the excess of employees' current and prior service contributions and miscellaneous receipts over benefit payments. The balance in the account at March 31, 1962 was \$1,587 million compared with \$1,469 million at the previous fiscal year-end.

#### *Canadian forces superannuation account*

The Canadian forces superannuation account increased by \$124 million during the fiscal year. The increase reflected the government's contribution of \$56 million which was made at the rate of one and two-thirds times the current and prior service contributions, interest of \$48 million credited to the account, and the amount of \$20 million by which contributions by permanent services personnel for current and prior years' service exceeded benefit payments from the account.

The government's contribution is credited to the account quarterly and is based on the total amount paid into the account during the preceding quarter by contributors in respect of current and prior years service.

*Old age security fund*

Under the Old Age Security Act pensions of \$55 per month (increased to \$65 per month effective February 1, 1962) are paid, without a means test, from the old age security fund to all eligible persons seventy years of age or over. Credits to the fund of \$644 million consisted of \$285 million from the 3 per cent sales tax, \$259 million from the 3 per cent tax on personal incomes (maximum tax \$90) and \$100 million from the 3 per cent tax on corporation profits and exceeded pension payments totalling \$625 million by \$19 million. Temporary loans of \$17 million as at March 31, 1961 were repaid resulting in a credit balance in the fund of \$2 million. In 1960-61 receipts of \$603 million exceeded payments of \$592 million by \$11 million and the \$28 million deficit at March 31, 1960 (covered by temporary loans from the Minister of Finance) was reduced to \$17 million.

### Undisbursed balances of appropriations to special accounts

This category records the undisbursed balances of appropriations to special accounts for which moneys have been appropriated by Parliament and from which disbursements may be made for authorized purposes in periods subsequent to that in which the appropriation was made. There was an increase of \$11 million in these accounts during the fiscal year bringing the balance as at March 31, 1962 to \$115 million.

TABLE 69

	115.1	104.5	10.6

The increase of \$10 million in the Colombo plan fund resulted from an appropriation of \$50 million to the fund (the offsetting debit being to budgetary expenditures) and disbursements of \$40 million charged to the fund.

The balance of \$34 million in the railway grade crossing fund at March 31, 1962 was approximately the same as at March 31, 1961. Disbursements from the fund were only slightly more than the \$10 million credited thereto and charged to budgetary expenditures.

### Deferred credits

This category records amounts due the government in respect of which payment has been deferred. These are contra accounts to corresponding items under the following asset categories: "Cash in blocked currencies", "Loans to, and investments in, Crown corporations", "Loans to national governments" and "Other loans and investments". There was a net increase of \$16 million in these accounts during the fiscal year, bringing the balance at March 31, 1962 to \$95 million.

	95.0	79.0	16.0

There was an overall increase in deferred interest during the fiscal year of \$14 million bringing the total to \$78 million at March 31, 1962.

There was no change during the year in deferred interest of \$44 million on loans made under the United Kingdom Financial Agreement Act, 1946. This is a contra account to a corresponding item under "Loans to national governments".

Deferred interest in respect of The St. Lawrence Seaway Authority which is a contra account to a corresponding item in "Loans to, and investments in, Crown corporations", increased by \$14 million during the year. In accordance with Order in Council P.C. 1961-1863 dated December 29, 1961, interest of \$14 million payable on December 31, 1961 by The St. Lawrence Seaway Authority, as well as interest payable on December 31, 1962, has been deferred until December 31, 1963. On December 31, 1963 the total amount of interest so deferred, together with interest due on that date, will be computed as a single sum and is to be repaid in equal annual instalments calculated by amortizing the said sum, including interest at rates determined by the Minister of Finance, over a period of forty-six years.

A new account in the amount of \$1 million was set up during the 1961-62 fiscal year in which is recorded capitalized interest in respect of advances made to the Northern Canada Power Commission for various projects in the Yukon Territory and the Northwest Territories and for advances made pursuant to the Atlantic Provinces Power Development Act to the provinces of Nova Scotia and New Brunswick. Upon completion of a project, accrued interest due is computed from, but not including the date of each advance, to the date of completion of the project and is set up as capitalized interest and added to the original amount of the advance to be repayable in thirty or forty (as the case may be) equal annual instalments.

Balances receivable under agreements of sale of Crown assets are set up as contra accounts to corresponding items under "Other loans and investments". During the year receipts amounted to \$1 million on outstanding agreements.

The government's equity in the agency account of Crown Assets Disposal Corporation is a contra account to a corresponding item under "Other loans and investments". This equity increased by \$2 million during the year.

### Suspense accounts

These consist of balances where some uncertainty as to disposition exists.

The replacement of materiel account, established by section 11 of the National Defence Act, is credited with amounts realized from the sale of materiel that has not been declared surplus to requirements but has been authorized by the Governor in Council to be sold to

other countries. The account is debited with disbursements representing amounts paid for the procurement of replacement materiel. During 1961-62 disbursements of \$6 million exceeded credits by \$3 million.

### Unmatured debt

The unmaturred debt of Canada at the close of the 1961-62 fiscal year amounted to \$16,946 million, an increase of \$878 million over the previous fiscal year-end total of \$16,068 million.

The details of the various loan issues, maturities, redemptions, cancellations and conversions resulting in the net increase are described more fully in the section "The Public Debt".

In the year under review, unmaturred debt obligations payable in London have been stated in Canadian dollars converted at the rate of \$2.80 for the pound sterling and that payable in New York at par for the U.S. dollar.

### C. CHANGES IN PRINCIPAL ASSET CLASSIFICATIONS DURING 1961-62

Total assets increased by \$514 million during 1961-62. The principal changes were increases of \$462 million in current assets and \$371 million in loans to, and investments in, Crown corporations and decreases of \$231 million in advances to the exchange fund account, \$42 million in other loans and investments, \$38 million in loans to national governments and \$6 million in deferred charges.

Current Assets

Total current assets at the close of the 1961-62 fiscal year amounted to \$1,246 million, an increase of \$462 million over the balance at the close of 1960-61. This increase was due mainly to increases of \$417 million in cash in current and special deposits and \$52 million in departmental working capital advances and revolving funds.

<sup>(1)</sup> Receiver General year-end balances in London, New York, Paris and Bonn are at the Canadian dollar equivalent of exchange rates at March 31.

Cash in current and special deposits increased by \$417 million and cash in hands of collectors and in transit decreased by \$8 million.

The increase of \$52 million in departmental working capital advances and revolving funds was due to increases of \$43 million in the agricultural commodities stabilization account and \$12 million in the defence production revolving fund offset in part by a decrease of \$2 million in miscellaneous departmental imprest and advance accounts.

The 1961-62 operations of the agricultural stabilization board resulted in a net increase in the agricultural commodities stabilization account of \$43 million, bringing the balance at March 31, 1962 to \$133 million. The operating loss of the board of \$22 million, representing the amount by which the cost of goods sold and other expenses exceeded revenue from sales, was charged to budgetary expenditures in accordance with Vote 685 of Appropriation Act No. 4, 1962.

The defence production revolving fund records the cost of materials procured for use in the manufacture of defence equipment until such time as they are billed to the Department of National Defence or sold to defence contractors for use in the manufacture of defence equipment, as well as working capital loans and advances for their production. Charges to the fund of \$18 million for the costs of procuring new materials exceeded credits of \$6 million to the fund from the sale of material and the repayment of advances.

Miscellaneous departmental imprest and advance accounts record accountable advances to departments held on deposit in various banks in the name of the department concerned and certain travelling and imprest advances to public officers. During the fiscal year these advances are carried as charges to the relevant appropriations; if they are accounted for but not repaid at the year-end, they are cleared from the appropriation and debited to this account and at the beginning of the new fiscal year are cleared from the account and charged to the appropriation concerned. There was a decrease in the account of \$2 million at March 31, 1962 compared with the balance at March 31, 1961.

The securities investment account records the temporary holdings by the government at amortized cost of its own securities (including Canada savings bonds at par for resale to subscribers under the government employees instalment purchase plan) and securities guaranteed by the government. Amortization is calculated to maturity date on securities purchased at a discount; and to call date, if one is given, otherwise to the date of maturity, on securities purchased at a premium. Also included are stocks, bonds, debentures and other securities assigned to the Minister of Finance from the Canadian Arsenals Limited pension fund for liquidation by the Minister and payment into the public service superannuation account on or before March 31, 1966. During 1961-62 there was a decrease of \$7 million in the account due to the cancellation of \$320 million of the holdings therein of the government's own securities, offset in part by the net result of other transactions in the account.

Moneys received after March 31, but applicable to the current year, are recorded in a special asset account for accounting purposes in the current year's books and at the beginning of the new fiscal year are cleared from the account and debited to cash. There was an increase of \$4 million in the balance at March 31, 1962 compared with the balance at March 31, 1961.

#### **Advances to the exchange fund account**

Advances during the year to the exchange fund account to finance the purchase of gold and foreign exchange amounted to \$397 million and repayments were \$628 million, reducing outstanding advances to \$1,793 million at March 31, 1962. Advances to the fund are shown in

the statement of assets and liabilities with the market value of investments from advances on the basis of closing exchange rates as at the date of the statement noted in parenthesis. Advances to the fund were \$1,793 million at March 31, 1962 and the market value of holdings at that date was \$1,760 million. At March 31, 1961 advances totalled \$2,024 million and holdings were valued at \$1,870 million.

### Sinking fund and other investments held for the retirement of unmatured debt

Included in this category is the sinking fund for the redemption of the 1933-63, 3 per cent Newfoundland stock and also other investments in the same stock. The balance in the category at March 31, 1962 was \$19 million compared with \$17 million at March 31, 1961.

It should be noted that in accordance with the announcement by the Minister of Finance in the budget speech of June 20, 1961 a purchase fund was established to assist in the orderly retirement of the public debt. During 1961-62, in accordance with this policy, government securities totalling \$166 million were purchased and subsequently cancelled before the fiscal year-end. Full particulars of the securities purchased and cancelled may be found in section 6 "The Public Debt" further on in this volume.

Each year £178,000 is paid into the sinking fund for the purchase of this stock. At March 31, 1962 holdings in the fund were, in Canadian dollars, \$13 million of Newfoundland stock and \$5 million of United Kingdom conversion stock held temporarily until Newfoundland stock is available.

### Loans to, and investments in, Crown corporations

The loans and investments included in this category as shown in the following table totalled \$3,985 million at March 31, 1962, \$371 million more than at March 31, 1961. Furthermore, appendix No. 12 shows the government equity in Crown corporations as recorded in the accounts of Canada as at March 31, 1962, together with the unrecorded government equity in the surpluses (less deficits), reserves, etc., of the Crown corporations at their respective years ended coincident with, or immediately prior to, the fiscal year ended March 31, 1962.

The government advanced to the company \$68 million for capital purposes and the retirement of debt in the hands of the public. Of this amount \$3 million was advanced for the company's purchase fund which is operated under the terms of Canadian National Railway Company bonds (guaranteed by the Government of Canada) issued on May 15, 1959, December 15, 1959, January 1, 1960 and October 1, 1960. Repayments of \$15 million were made by the company on current and prior years advances for capital and debt retirement.

In addition, to assist the Canadian National Railways to finance further capital expenditure during the year, the government purchased \$21 million of 4 per cent preferred stock of the company. This stock is issued under the authority of the Canadian National Railways Capital Revision Act, 1952, in an amount equal to 3 per cent of the gross revenue of the company.

The government also provided the company with temporary loans of \$64 million in respect of its 1961 income deficit. This amount plus temporary loans of \$2 million made on the same account in 1960-61 brought the total loans on account of the 1961 deficit to \$66 million. It should be noted that the 1961 income deficit of the Canadian National Railways was \$67 million (of which \$66 million was covered by temporary loans and \$1 million paid from company funds) and was charged to budgetary expenditure.

At March 31, 1961 temporary loans of \$5 million were outstanding to the Trans-Canada Air Lines in respect of its 1961 income deficit. During 1961-62 further advances of \$2 million were made for this purpose of which \$500 thousand, which was not required, was refunded to the government. The 1961 deficit of \$6½ million was charged to budgetary expenditure during the year. However, the government made advances of \$5 million, on account of the air lines 1962 income deficit, which was still outstanding at March 31, 1962.

*Central Mortgage and Housing Corporation*

Advances to Central Mortgage and Housing Corporation amounted to \$1,701 million as at March 31, 1962, an increase of \$190 million over the previous fiscal year-end balance of \$1,511 million.

Advances during the year to the corporation for direct lending and limited dividend housing were \$224 million compared with the 1960-61 total of \$223 million and for federal-provincial projects were \$19 million compared with \$13 million. Advances of \$19 million for federal-provincial projects consisted of \$10 million for housing, \$6 million for municipal sewage treatment and \$3 million for university housing.

Repayments during 1961-62 by the corporation amounted to \$52 million. Of this amount, \$46 million was on account of direct lending and limited dividend housing, \$3 million on account of federal-provincial projects and \$3 million on account of housing.

#### *Farm Credit Corporation*

The government provided the Farm Credit Corporation with \$56 million in 1961-62 of which \$54 million was for loans by the corporation on farm property and \$2 million represented a purchase by the government of additional shares in the corporation as authorized by the Farm Credit Act. In 1960-61 comparable amounts were \$40 million and \$1 million, respectively. Repayments by the corporation were \$2 million bringing the balance in the account at March 31, 1962 to \$210 million.

#### *The St. Lawrence Seaway Authority*

Advances to The St. Lawrence Seaway Authority during 1961-62 amounted to \$14 million bringing the balance at March 31, 1962 to \$335 million. Deferred interest on these loans was increased during the fiscal year to \$34 million at March 31, 1962 and included deferred interest of \$19 million capitalized as at March 31, 1959. In accordance with Order in Council P.C. 1961-1863 dated December 29, 1961, interest of \$14 million payable on December 31, 1961 by The St. Lawrence Seaway Authority, as well as interest payable on December 31, 1962, has been deferred until December 31, 1963. On December 31, 1963 the total amount so deferred, together with the interest due on that date, will be computed as a single sum and is to be repaid in equal annual instalments calculated by amortizing the said sum, including interest at rates determined by the Minister of Finance, over a period of forty-six years. This single sum and the principal sum of the loans made to the Authority now outstanding, together with the deferred interest capitalized as at December 31, 1959, shall be repaid in equal annual instalments commencing December 31, 1964 over a period of forty-six years except that on December 31, 1984 the balance of the said single sum and interest thereon then owing and the principal sum, together with deferred interest and any unpaid interest thereon, shall be paid in cash or by the delivery of an obligation or obligations of the Authority bearing such rate of interest and subject to such other terms and conditions as the Governor in Council may approve.

#### *Other Crown Corporations*

Loans to the Canadian Overseas Telecommunication Corporation increased by \$6 million during the fiscal year; loans to the National Capital Commission increased by \$6 million (of which \$5 million was for the acquisition of property in the Greenbelt); loans to the National Harbours Board increased by \$6 million (due to an increase of \$13 million in respect of Montreal Harbour partially offset by a decrease of \$7 million in respect of the Jacques Cartier Bridge); advances to Atomic Energy of Canada Limited increased by \$5 million; loans to the Export Credits Insurance Corporation increased by \$5 million (due to loans, under section 21 of the Export Credits Insurance Act, to the Governments of Chile and Mexico); and loans to the Northern Ontario Pipe Line Crown Corporation decreased by \$5 million.

#### **Loans to national governments**

These loans totalled \$1,340 million at March 31, 1962, a decrease of \$38 million from the previous fiscal year-end balance.

The United Kingdom repaid \$17 million of the \$1,185 million loan made under the \$1,250 million credit authorized by the United Kingdom Financial Agreement Act, 1946, reducing the principal to \$1,030 million at March 31, 1962.

In 1957, the Government of the United Kingdom deferred the payment due December 31, 1957 of principal and interest on the above loan. The deferment was by an agreement between the Governments of Canada and the United Kingdom that was approved by a 1957 Act to amend the United Kingdom Financial Agreement Act, 1946. The agreement, which became effective April 29, 1957 permits the United Kingdom in lieu of any right of waiver hitherto existing to defer after December 31, 1956, seven instalments of principal and interest under certain conditions. Principal and interest due December 31, 1957 was so deferred. The first of any such deferred instalments is payable on December 31, 2001, and the others annually thereafter, in order. In addition, it permitted the instalment of interest in respect of the year 1956 to be deferred and provided that this instalment of interest so deferred shall be paid on December 31 of the year immediately following the year in which the last of all other instalments, including those deferred, is due. Interest at 2 per cent is payable on deferred instalments of both principal and interest.

Advances under Part II of the Export Credits Insurance Act to Belgium, France and The Netherlands to assist them in the purchasing of goods in Canada were reduced by repayments of \$15 million during the fiscal year. The balance at March 31, 1962 was \$237 million.

Special loans to Colombo plan countries to finance the purchase of wheat and flour by them from Canada totalled \$27 million at March 31, 1962, \$5 million less than at March 31, 1961.

### Other loans and investments

At March 31, 1962 balances in this category totalled \$994 million a net decrease of \$42 million from the previous year-end.

*Subscriptions to capital of, working capital advances and loans to, international organizations*

Canada's subscriptions to the capital of international organizations increased by \$29 million due to a further subscription of \$8 million to the international development association and revaluation adjustments of \$21 million in the Canadian dollar balance in the international monetary fund.

The accounts of the international monetary fund are maintained in terms of United States dollars; therefore, in order to keep Canada's subscription at the required amount, that portion represented by Canadian dollar balances is revalued quarterly and any settlement required is normally made annually as at April 30, the end of the fund's fiscal year, but, if at the end of any quarter the rate in Canadian dollars in respect of United States dollars differs by

more than 5 per cent from the rate used for the previous settlement, then settlement becomes necessary as at that quarter. As the rate at January 31, 1962 differed by more than 5 per cent from the rate at which settlement was made as of April 30, 1961, settlement became necessary as at that date. This resulted in a net charge to Canada of \$21 million.

#### *Loans to provincial governments*

At March 31, 1962 these loans totalled \$98 million approximately the same as at March 31, 1961. Repayments amounting to \$8 million by the provinces were partly offset by additional loans of \$7 million, of which \$3 million was to the province of Saskatchewan in connection with the South Saskatchewan River project, and \$3 million and \$1 million respectively to the Provinces of New Brunswick and Nova Scotia pursuant to the Atlantic Provinces Power Development Act. Final settlement was made during 1961-62 of the overpayments to provinces arising out of the 1952 tax rental agreements.

#### *Veterans land act advances*

Advances are made by the government under the Veterans Land Act for the acquisition, by the Director, of properties, buildings, materials, live stock, farm equipment and commercial fishing equipment for purposes of the act, for sale to qualified veterans of world war 2 and Korea under sale agreements which carry specified conditional benefits if the terms of such agreements are adhered to by the veteran.

Advances during the year amounted to \$31 million and repayments were \$23 million bringing outstanding advances at March 31, 1962 to \$208 million. This was partially offset by a reserve for conditional benefits amounting to \$31 million, resulting in a balance in this account of \$177 million at the year-end.

The reserve for conditional benefits under the act consists of amounts charged to budgetary expenditures, beginning with the fiscal year 1945-46, to cover one-tenth of the amount of conditional benefits included in sales to veterans and credited to this account. As and when conditional benefits are earned, the amounts are charged hereto and credited to the advances. During the year \$6 million was charged to the reserve account and credited to the advances and additional reserves of \$3 million were credited to the reserve account and charged to budgetary expenditures resulting in a net decrease of \$3 million in reserves.

#### *Miscellaneous loans and investments*

Total of the balances in these accounts at March 31, 1962 was \$81 million less than the total at March 31, 1961. The repayment of \$67 million by the Unemployment Insurance Commission and the repayment of \$17 million of temporary loans in respect of the old age security fund more than accounted for this decrease.

#### **Securities held in trust**

This category records the security holdings of various deposit and trust accounts and annuity, insurance and pension accounts. Bonds and certified cheques held in connection with contractors' securities included in the deposit and trust category are also recorded under this heading. The balance at March 31, 1962 was \$26 million, \$4 million less than at the end of the previous fiscal year.

#### **Deferred charges**

This category consists of the unamortized portions of actuarial deficiencies in the Canadian forces superannuation account, the public service superannuation account, the Royal Canadian Mounted Police superannuation account, and the outstanding balance of unamortized loan flotation costs. There was a decrease of \$6 million in this category during the year, due to a

decrease of \$9 million in unamortized loan flotation costs and the setting up during the year of \$3 million as the unamortized portion of the actuarial deficiency in the Royal Canadian Mounted Police superannuation account, bringing the balance at March 31, 1962 to \$728 million.

#### *Unamortized portions of actuarial deficiencies*

These accounts record the unamortized portions of the actuarial deficiencies in the public service, the Canadian forces and the Royal Canadian Mounted Police superannuation accounts which have been set up as deferred charges to be written off to budgetary expenditure upon parliamentary approval.

The deficiencies in the public service superannuation account, the Canadian forces superannuation account and the Royal Canadian Mounted Police superannuation account are based on actuarial valuations made as at December 31, 1957, December 31, 1955, and December 31, 1959, respectively.

During 1961-62, \$3 million was credited to the Royal Canadian Mounted Police superannuation account in accordance with an estimate of the deficiency made by the Department of Insurance as at December 31, 1961 and an equivalent amount was set up in this category as a contra item.

#### *Unamortized loan flotation costs*

This account records the residual balances of discounts, commissions, redemption bonuses and conversion premiums on loan flotations that have not been charged to budgetary expenditure. The balance at March 31, 1962 totalled \$121 million, a decrease of \$9 million from the previous year-end balance.

(1) Adjustments due to cancellations, exchanges, conversions and additional issues of existing loans.

Cost of new loans issued during 1961-62 and charged to the account amounted to \$36 million, of which \$10 million was in respect of treasury bill discounts which will be charged to interest on public debt in 1962-63. Credits to the account were \$46 million of which \$34 million was a charge to the budgetary expenditure item "Annual amortization costs", \$11 million (representing discount on treasury bills sold in 1960-61) was a charge to the budgetary item "Interest on public debt" and \$1 million was an adjustment due to cancellations and exchanges of unmatured loans prior to their maturity date.

### **Suspense accounts**

The only item in this category is the cheque adjustment suspense account which reflects unadjusted balances resulting from the reconciliation of payments for redemption of paid cheques with the amount of those cheques as subsequently determined in adjustment of the outstanding cheque account and includes amounts for the fiscal years 1942-43 to 1960-61 inclusive.

### **Capital assets**

Assets of the government such as land, buildings, works and equipment, etc., that are charged to budgetary expenditure at the time of acquisition or construction, are included in this category and are shown on the statement of assets and liabilities at a nominal value of \$1.

### **Inactive loans and investments**

Loans and investments which are not currently revenue-producing or realizable are recorded in this category. Included are the loan of \$49 million to China under the Export Credits Insurance Act, loans of \$24 million and \$7 million made to Roumania and Greece in 1919-20 and 1920-21 and advances of \$15 million in respect of the implementation of guarantees (Ming Sung Industrial Company Limited).

### **Reserve for losses on realization of assets**

There was no change in this reserve during the year, the balance at March 31, 1962 being \$546 million, unchanged from the end of the previous year.

## **D. INCREASE IN NET DEBT**

At March 31 1962 the net debt of Canada, which is the excess of gross liabilities over the recorded net assets, or, in effect, the accumulated overall deficit since Confederation, amounted to \$13,228 million compared with \$12,437 million at March 31, 1961. This increase is the result of the budgetary deficit of \$791 million in 1961-62.

## **E. CONTINGENT LIABILITIES**

In addition to its direct liabilities which are reflected in the statement of assets and liabilities of Canada, the government has assumed certain contingent liabilities, the details of which are set out in the section of this survey "The Public Debt" and also on page 167.

The major categories of this indirect or contingent debt are the guarantee of insured loans under the National Housing Act, guaranteed bonds and debentures of the Canadian National Railways and the guarantee of deposits maintained by the chartered banks in the Bank of Canada. The remainder consists chiefly of guarantees of loans made by chartered banks to the Canadian Wheat Board and to farmers and veterans for certain authorized purposes and guarantees under the Export Credits Insurance Act.

## 6. THE CASH POSITION

The government's cash position is affected not only by the budgetary transactions but also by changes in the government's outstanding unmatured debt and other non-budgetary transactions. In 1961-62 there was an increase of \$417 million in the government's bank balances. This increase was the result of the budgetary deficit of \$791 million being more than offset by an increase of \$895 million in outstanding unmatured debt (after taking into account transactions in the securities investment account and in the sinking fund and other investments account) and the net receipts of \$313 million from other non-budgetary transactions.

Non-budgetary receipts and disbursements relate to transactions which result in increases or decreases in the government's assets and liabilities and do not appear in what might be called the government's income for the fiscal year nor do they enter into the calculation of the annual budgetary surplus or deficit. However, in considering the full scope of the government's financial operations and in measuring their effect on the government's cash position and their impact on the economy, non-budgetary as well as budgetary transactions must be taken into account.

The increases or decreases in the government's assets and liabilities have been described in detail in the section entitled "Statement of Assets and Liabilities of Canada". On the assets side the non-budgetary transactions consist, for the most part, of loans and advances to, and repayments by, Crown corporations and other government agencies and funds (including the old age security fund), national, provincial and municipal governments, international organizations, veterans and other borrowers. On the liabilities side they relate mainly to receipts and payments in connection with the many deposit and trust accounts, and annuity, insurance and pension funds held or administered by the government.

The following statement summarizes both the budgetary and non-budgetary transactions for 1961-62 and indicates how they affected the government's cash position. For purposes of comparison the corresponding figures for 1960-61 are also shown.

<sup>(1)</sup> Excluding securities other than government issues.

As the table shows, non-budgetary receipts and credits for 1961-62 (excluding unmatured debt transactions) totalled \$877 million while non-budgetary disbursements and charges (also excluding unmatured debt transactions) amounted to \$564 million, resulting in a net receipt of \$313 million from non-budgetary transactions. As there was a budgetary deficit of \$791 million, \$478 million required financing which was achieved by an increase of \$895 million in unmatured debt resulting at the same time in an increase of \$417 million in cash balances. In 1960-61 there was a net receipt of \$46 million from non-budgetary transactions and for the same period there was a budgetary deficit of \$340 million resulting in \$294 million being financed by an increase of \$223 million in unmatured debt outstanding in the hands of the public and a decrease of \$71 million in cash balances.

## Non-budgetary receipts and credits

**Summary**

In summary, as budgetary and non-budgetary transactions during 1961-62 required financing in the amount of \$478 million, and unmatured debt outstanding in the hands of the public (after taking into account transactions in the securities investment account and in the sinking fund and other investments account) increased by \$895 million, cash balances on deposit with the banks increased by \$417 million.

7. THE PUBLIC DEBT

Gross and net debt

The gross debt of Canada amounted to \$22,908 million as at March 31, 1962. Unmatured debt, including treasury bills, in the amount of \$16,946 million accounted for approximately 74 per cent of the total. The remaining liabilities, consisting of current and demand liabilities, deposit and trust accounts, annuity, insurance and pension accounts, undisbursed balances of appropriations to special accounts, deferred credits and sundry suspense accounts, aggregated \$5,962 million or approximately 26 per cent of the total debt.

The net debt of Canada was \$13,228 million at March 31, 1962, an increase of \$791 million over the net debt at March 31, 1961. Total liabilities increased by \$1,305 million to \$22,908 million and net assets by \$514 million to \$9,680 million at March 31, 1962.

### Unmatured debt

The total unmatured debt of Canada at March 31, 1962 totalled \$16,946 million, \$878 million more than at the end of the previous fiscal year. The government's holdings of its own securities were \$101 million, comprised of \$82 million in the securities investment account and \$19 million in the sinking fund and other investments account. This was a decrease of \$17 million over the comparable figures at March 31, 1961 when holdings were \$101 million in the securities investment account and \$17 million in the sinking fund account.

The decrease of \$19 million in the government's holdings of its own securities in the securities investment account was due to the cancellation of \$320 million of these holdings, offset in part by the net result of other transactions in the amount of \$301 million.

In accordance with the announcement by the Minister of Finance in the budget speech of June 20, 1961, a purchase fund was established during the fiscal year to assist in the management of the public debt. Purchases of securities were:

\$11 million  $4\frac{1}{4}$  per cent bonds due September 1, 1972;  
 \$53 million  $5\frac{1}{2}$  per cent bonds due October 1, 1975;  
 \$ 7 million  $3\frac{1}{4}$  per cent bonds due June 1, 1976;  
 \$ 8 million  $3\frac{3}{4}$  per cent bonds due January 15, 1978;  
 \$15 million  $3\frac{1}{4}$  per cent bonds due October 1, 1979;  
 \$70 million  $4\frac{1}{2}$  per cent bonds due September 1, 1983 and  
 \$ 2 million  $3\frac{3}{4}$  per cent bonds due March 15, 1998.

Of these securities, \$61 million were cancelled in November, 1961 and the balance of \$105 million cancelled prior to the fiscal year-end, reducing unmatured debt by similar amounts.

Of the total unmatured debt, \$16,816 million or 99 per cent was payable in Canada, \$98 million in New York and \$32 million in London.

*Summary of security issues and maturities, redemptions, conversions or cancellations*

During the year ended March 31, 1962 the government issued securities payable in Canada in the principal amount of \$3,456 million (excluding the refunding of treasury bills which mature weekly). In the same period securities payable in Canada in the amount of \$548 million (including a net reduction of \$50 million in treasury bills) matured and the government redeemed, converted or cancelled issues payable in Canada in the amount of \$2,030 million.

## Interest rates

The average interest rate on the government's unmatured debt at March 31, 1962 was 3.94 per cent compared with 3.91 per cent at the end of the previous fiscal year, reflecting slightly higher rates for Canada savings bonds and marketable bonds offset partly by lower yields on treasury bills.

The following table sets out the unmatured debt outstanding at March 31 for each of the fiscal years 1958 to 1962 inclusive, with the average rate of interest thereon. For purposes of comparison the unmatured debt is classified as to marketable bonds, non-marketable bonds (including Canada savings bonds) and treasury bills.

### Indirect debt or contingent liabilities

In addition to the direct debt set out in the statement of assets and liabilities the government has assumed certain indirect or contingent obligations. These consist of securities of the Canadian National Railways, guaranteed as to principal and interest or as to interest only, and a number of miscellaneous guarantees, the chief of which are the guarantee of insured loans made by chartered banks and other approved lending institutions under the National Housing Act, 1954, deposits maintained by the chartered banks in the Bank of Canada, bank advances to the Canadian Wheat Board, advances under the Export Credits Insurance Act and bank loans under the Farm Improvement Loans Act.

The government's liability under its guarantee of insured loans under the National Housing Act, 1954 was \$3,651 million at December 31, 1961 compared with \$3,025 million at December 31, 1960.

A summary of the guaranteed bonds and debentures and the other guarantees and contingent obligations assumed by the Government of Canada and the amounts thereof (if determinable) at March 31, 1962 and March 31, 1961 are shown in the following table:

## NOTES TO STATEMENT OF ASSETS AND LIABILITIES AS AT MARCH 31, 1962

The increase in net debt reflects the budgetary deficit of \$791,021,950.

The liability in respect of annuity, insurance and pension accounts does not include any provisions for additional liabilities, resulting from salary and pay increases, subsequent to December 31, 1957 for the public service superannuation account, March 31, 1958 for the Canadian forces superannuation account and December 31, 1961 for the Royal Canadian Mounted Police superannuation account. These additional liabilities will be included in the next quinquennial actuarial valuations to be made as at December 31, 1960 for the Canadian Forces superannuation account, December 31, 1962 for the Public Service superannuation account and December 31, 1964 for the Royal Canadian Mounted Police superannuation account.

### Explanations regarding the general nature of the items in the Statement of Assets and Liabilities

#### ASSETS

1. (a) Cash represents balances of current and special deposits at credit of the Receiver General of Canada in banks in Canada, London, New York, Paris and Bonn, blocked currency deposits in foreign countries and cash in hands of collectors and in transit. Blocked currency may be used only for certain governmental purposes in the country of origin. Cash in hands of collectors and in transit represents moneys received by public officers on or before March 31 but not deposited to the credit of the Receiver General of Canada until after that date.
1. (b) Departmental working capital advances and revolving funds constitute the advances outstanding at the close of the relative fiscal years for working funds of certain government departments.
1. (c) This shows the temporary holdings by the Government of Canada at amortized cost of its own securities (including Canada savings bonds at par for resale to subscribers under the government employees instalment purchase plan) and securities guaranteed by the government. Also included are stocks, bonds, debentures and other securities assigned to the Minister of Finance from the Canadian Arsenals Limited pension fund for liquidation by the Minister and payment into the public service superannuation account on or before March 31, 1966.
1. (d) This category includes moneys received after March 31, but applicable to the current year, and Post Office moneys in hands of collectors and in transit at March 31. Accounts receivable, with the exception of those held as charges against departmental working capital advances and revolving funds, are not included in this statement. Summaries of accounts receivable, furnished by the departments and shown in the departmental sections of Volume II, do not include those of the Department of National Revenue—Taxation Division.
2. These are advances to finance the purchase of gold and foreign exchange. The value of investments from advances on the basis of closing exchange rates on March 31 is also shown in parentheses.

The amount of the credit drawn by December 31, 1951 was to be repaid in 50 annual instalments beginning on that date, with interest at the rate of 2 per cent per annum. The agreement, as amended in 1957, provides for the deferment of interest in respect to the year 1956 and of seven instalments of principal and interest after December 31, 1956, under certain conditions. Interest was deferred for 1956 and interest and principal for 1957. The decrease represented repayment of principal due December 31, 1961. Interest was credited to non-tax revenue—return on investments.
- 8 This account was set up to record on the government's books the deferred interest on the loan in the preceding note. A corresponding credit was set up under deferred credits (see schedule P). The amount is made up of interest due December 31, 1956, \$22,241,802 and December 31, 1957, \$21,932,432. Interest at the rate of 2 per cent per annum, on this deferred interest, was credited to non-tax revenue—return on investments.
- 9 The Halibut and Salmon Treaties between the United States and Canada provide that each country pay one-half of the joint expenses incurred by the International Pacific Halibut Commission and the International Pacific Salmon Fisheries Commission. All accounts are paid in the first instance by Canada and monthly statements are rendered for the amount recoverable from the United States. The closing balances represent outstanding billings.
- 10 This account is charged with expenditures for operating costs of *Pinetree* stations. Credits consist of recoveries of these amounts from the Government of the United States.
- 11 Article VIII of the Agreement approved by the Visiting Forces (North Atlantic Treaty) Act, c. 284, R.S., as amended, deals with claims for damages to third parties arising from accidents in which a visiting force is involved. This account is debited with the amount chargeable to other states, of such claims for damages which took place in Canada, and is credited with recoveries.

- 1 These accounts reflect Canada's subscriptions to the international bank for reconstruction and development and to the international monetary fund. Subscriptions consist of gold, Canadian dollars, United States dollars, and in the case of the international monetary fund also includes non-interest-bearing notes which are carried as a liability of the Government of Canada under the heading "Current and demand liabilities".

The accounts of the international monetary fund are maintained in terms of United States dollars, therefore in order to keep Canada's subscription at the required amount that portion represented by the Canadian dollar balance is revalued quarterly on July 31, October 31, January 31 and April 30. If the revaluation results in an amount owing to Canada it is carried in the government's books of account under the current asset category or if it is an amount owing to the fund it is carried in the government's accounts as a current and demand liability. Any settlement required is normally made as at April 30, the end of the fund's fiscal year but, if at the end of any quarter the rate in Canadian dollars in respect of United States dollars differs by more than 5 per cent from the rate used for the previous settlement, then settlement becomes necessary as at that quarter. As the rate at January 31, 1962 differed by more than 5 per cent from the rate at which settlement was made as of April 30, 1961, settlement became necessary as at that date. This resulted in a net charge to Canada of \$20,964,335.

- 2 This covers Canada's subscription under the International Development Association Act which consists of United States dollars and non-interest-bearing notes which are carried as a liability of the Government of Canada under the heading "Current and demand liabilities".

- 3 This account records the purchase of 3,600 shares of stock of the international finance corporation for the amount of \$3,522,375 under authority of Vote 731, Appropriation Act No. 6, 1956.

- 4 These items represent the Canadian government's equity in the working capital funds of international organizations.

The Canadian government's assessment in respect of food and agricultural organization for 1962 was increased by \$10,178.

The Canadian government's assessment in respect of intergovernmental maritime consultative organization for 1962 was increased by \$588.

The Canadian government's assessment in respect of international atomic energy for 1962 was reduced by an amount of \$209 which was received from the agency.

The Canadian government's assessment to the international civil aviation organization was reduced by an amount of \$17,851 to be refunded in equal instalments of \$2,975 over a six year period beginning January 1959. The amount of \$2,975 represents the fourth annual instalment.

The Canadian government's assessment in respect of united nations organization was increased by \$2,511.

In 1955-56, the United Nations took over the assets of the former League of Nations, Canada's share of the fixed assets amounted to \$458,876 U.S. which the United Nations agreed to refund to Canada in eleven yearly instalments of \$41,716 U.S. beginning 1949. The instalment for 1961-62 amounting to \$43,724 Canadian was recovered by deduction from the assessment to the operational budget of the United Nations for 1961-62.

The Canadian government's assessment in respect of the world health organization was increased by \$18,487.

- 5 Recorded here are overpayments to provinces due to the receipt of revised population figures on the basis of the 1956 census after the payments under the 1952 tax rental agreements had been made. The overpayments were recovered over a five-year period ended March 31, 1962.

- 6 The Atlantic Provinces Power Development Act, c. 25, 1957-58 authorized the Minister, with the approval of the Governor in Council, to enter into an agreement with the government of any of the Atlantic provinces to assist in the generation of electric energy in the province by steam driven generators and the control and transmission of electric energy. The act further provides that the Northern Canada Power Commission on behalf of the Government of Canada shall administer any agreement made under the act to such extent as the Minister may direct.

Advances were provided for by:

The amounts shown as loans represent expenditures on completed projects, while amounts shown as advances are for projects still under construction. Included in the loans are charges representing capitalization of accrued interest on completed projects. This is in accordance with terms and conditions authorized under the Atlantic Provinces Power Development Act and the agreements entered between Canada and the provinces which direct that interest on advances shall, on completion of projects, be added to the amount of the advances for repayment.

During the fiscal year amounts of \$588,739 for the Province of Nova Scotia and \$124,124 for the Province of New Brunswick were charged to the loans and a corresponding credit set up under "Deferred Credits—Northern Canada Power Commission—Capitalized interest".

- 7 Loans not exceeding \$30,000,000 were authorized by An Act to authorize a Loan to the Government of New Brunswick in respect of the Beechwood Power Project, c. 26, 1957-58. A loan in the amount of \$29,500,000 was made under authority of P.C. 1958-434, March 24, 1958 which provided that it bear interest at the rate of 3½ per cent per annum and be repayable in eight equal annual instalments of principal and interest, the first instalment to be paid on April 8, 1959. The province's share for the fiscal year 1961-62 amounted to \$3,855,524. This was initially charged to votes 33 and 34 and later transferred to this account.  
This account also records treasury bills received as payment of the province's share of certain expenditures on the South Saskatchewan River project.  
During the year, \$1,193,626 in cash and a treasury bill in the amount of \$1,264,500 were received from the province.
- 9 In these accounts are recorded the outstanding balances in respect of the adjusted amounts of treasury bills indebtedness of the governments of these provinces to the federal government pursuant to the provisions of the Western Provinces Treasury Bills and Natural Resources Settlement Act, c. 77, 1947 which provided for the retirement of this indebtedness by annual payments beginning July 1, 1948 and extending over a thirty-year period. Decreases represent repayments. Interest, on that portion of the indebtedness of each province which represented the amount of loans for capital and ordinary governmental purposes, was received and credited to non-tax revenue—return on investments.
- 10 Loans to the province were made under authority of section 4 (2) of the Crop Insurance Act, c. 42, 1959.  
Repayments are made as provided in section 20 of an agreement signed with the Province of Manitoba dated May 24, 1961.
- 11 Under the Natural Resources Transfer Agreement which was authorized by the Manitoba Natural Resources Act, c. 29, 1930, as amended, the Government of the Province of Manitoba agreed to pay the Federal Government its share of the amounts expended on Lac Seul and Lake of the Woods storage projects. - 16 In 1957-58 the Governor in Council in accordance with section 81(2) of the Financial Administration Act authorized Crown corporations to deposit in the Consolidated Revenue Fund, with the approval of the appropriate Minister and the Minister of Finance, that portion of their cash which was temporarily in excess of their current requirements, such deposits to earn interest on minimum monthly balances at a rate determined on the basis of weekly three-month treasury bill yields. However, the deposit of Atomic Energy of Canada Limited is non-interest bearing as it represents a return of invested capital and is available for the redemption of capital stock at some future date.
- 17 These accounts were established to record instalment payments on purchases of government bonds by employees of the Government of Canada and certain government agencies.
- 18 P.C. 1961-1657, November 16, 1961, authorized the transfer to the Minister of Finance of all securities in the pension fund of Canadian Arsenals Limited for liquidation by the Minister and payment into the public service superannuation account on or before March 31, 1966. The balance shown represents the market value as at December 31, 1961, of these securities.
- 19 Section 53 of the Financial Administration Act provided for the establishment of this account and for the crediting hereto of the sum of \$25,000, such further amounts as are appropriated by Parliament for the purposes of this section, and any recoveries of losses referred to in section 54 of the Act.  
Section 54 states that the Minister may, in accordance with and subject to the regulations pay out of the account any losses sustained by subscribers for government securities who have paid all or part of the purchase price but have not received the security or repayment of the amount so paid, and losses sustained by any person in the redemption of securities.
- 20 P.C. 144, January 18, 1936, as amended by P.C. 1955-1672, November 9, 1955, authorized: (a) the setting up of this trust account; (b) the payment of the grant of \$100,000 provided by Vote 383, Appropriation Act No. 6, 1935 and the crediting of this amount to the account; (c) the Department of Finance to accept further sums not exceeding \$400,000 for credit to the account; (d) the allowing of interest of 3 per cent per annum, paid semi-annually on April 1 and October 1; and (e) withdrawals from the fund, in whole or in part, at the pleasure of the Trustees. The interest payments were charged to interest on public debt.
- 21 Under the 1957 tax rental agreements, the obligation on the renting provinces to abstain from the imposition of personal and corporation income taxes was to lapse on December 31, 1961. As the Government of Canada did not offer to renew tax rental agreements, the former renting provinces have all imposed personal and corporation income taxes effective January 1, 1962. The Government of Canada, in place of the tax rental agreements, offered to enter into tax collection agreements with the provinces whereby Canada would undertake to collect without charge the provincial personal and corporation income taxes at rates determined by the provinces provided that the provincial personal income tax was expressed as a percentage of the federal personal income tax payable and the provincial corporation income tax employed a definition of corporate taxable income identical with the federal definition. To make room for the imposition of provincial income taxes, the Income Tax Act was amended in the 1961 session of Parliament to (1) reduce the federal income tax payable by individuals resident in the provinces by 16 per cent in 1962 and by a further one per cent in each subsequent year until the deduction amounts to 20 per cent in 1966, and (2) reduce the federal tax rate on the taxable income of corporations earned in the provinces by 9 percentage points. Canada will be collecting the personal income tax for nine provinces (Quebec excepted) and the corporation income tax for eight provinces (Quebec and Ontario excepted). With the exception of Saskatchewan and Manitoba, the provinces which have entered into tax collection agreements have imposed personal and corporation income taxes equivalent to the federal withdrawal. The aforementioned provinces have imposed personal income taxes at 22 per cent rather than 16 per cent of the federal tax payable and 10 per cent rather than 9 per cent of the taxable income of corporations. The balance shown represents income tax collections owing to the provinces at March 31, 1962.

Payments may be made out of the account in accordance with the regulations by way of indemnity for losses suffered by Her Majesty or others by reason of defalcations or other fraudulent acts or omissions of public officers. The Act further directs that every payment out of the account and the amount of every loss suffered by Her Majesty by reason of defalcations or omissions of a public officer, together with a statement of the circumstances, shall be reported annually in the Public Accounts. This information will be found in section 37 of Volume II of this report.

Included in these regulations is a list of departments and Crown corporations to which the Act does not apply. #### Votes 16 and 503 Health of Animals Division—Compensation for animals

slaughtered .....	3,600,000
Expenditures .....	(20) \$ 3,564,676

The Animal Contagious Diseases Act empowers the Minister to authorize the slaughtering of animals suffering from infectious or contagious disease, or those suspected of being so infected and those which are or have been in contact or close proximity to such animals, and to pay such compensation as he may determine, not to exceed values stated in the Act for grade and pure bred animals. When the sale of the carcass is unlawful, the Act also provides for additional compensation to be paid in respect of carcasses of animals slaughtered for the reason that they were affected with bovine tuberculosis. This additional compensation is to be the average value the carcasses would have had if the sale had been lawful at time of slaughter, such average value to be determined by the Minister.

**Payment of carrying costs of temporary wheat reserves owned by the Canadian Wheat Board, the Temporary Wheat Reserves Act, c. 2, 1956 .....**

**(20) \$48,793,063**

The above statutory authority provides that where, after July 31, 1955, the stocks of wheat of the Canadian Wheat Board exceed one hundred and seventy-eight million bushels at the commencement of a crop year, the Minister of Finance shall, out of the Consolidated Revenue Fund, pay to the Board for each day in that crop year an amount equal to the portion of the said stocks that exceeds one hundred and seventy-eight million bushels at the commencement of that crop year, multiplied by the carrying charge rate paid by the Board at the end of the immediately preceding crop year. If at the commencement of a crop year the stocks of wheat of the Board are not in excess of one hundred and seventy-eight million bushels, no payment shall be made by the Minister of Finance to the Board under this Act in respect of that or any subsequent crop year.

The stocks of wheat of the Canadian Wheat Board as at July 31, 1961 amounted to 440,348,099.1 bushels and, after the deduction of 178,000,000 bushels as required by section 3 of the Act, the balance of stocks on which payment is based is 262,348,099.1 bushels. Refunds to March 31, 1962 in respect of defaulted accounts were \$33,415.

**Payments in connection with the Prairie Grain Provisional Payments Act, c. 2, 1960 (20) \$ 1,019**

Section 3 (1) of the Prairie Grain Provisional Payments Act authorized the Canadian Wheat Board to make provisional payments for the 1959-60 crop year in respect of future deliveries of unthreshed grain and section 8 (1) provides that, for the purpose of making such payments, the Board may borrow money, and the Minister of Finance may, on behalf of Her Majesty, guarantee, on such terms and conditions as the Governor in Council may approve, repayment of money so borrowed and interest thereon.

The above amount covering interest charges for the period April 1, 1961 to March 31, 1962, was paid under section 8 (1) of the Act.

**Payments in connection with Crop Insurance Act, c. 42, 1959 ..... (20) \$ 193,932**

## Appendix 3

## BOARD OF GRAIN COMMISSIONERS FOR CANADA

## AUDITOR GENERAL OF CANADA

Ottawa, October 2, 1962.

THE CHIEF COMMISSIONER AND COMMISSIONERS,  
BOARD OF GRAIN COMMISSIONERS FOR CANADA,  
WINNIPEG, MANITOBA.

We have examined the accounts and financial transactions of the Board of Grain Commissioners for Canada for the year ended March 31, 1962.

Our examination was made in accordance with generally accepted auditing standards and included a general review of the accounting procedures and of the system of internal control, together with such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

The powers and duties of the Board are defined in the Canada Grain Act, R.S. 1952, c.25, as amended. As required by statute, the regulations made by the Board are published in consolidated form in the Canada Gazette during the month of August in each year.

For purposes of accounting and financial control, the Board functions in the same manner as a department of the Government of Canada—the expenditures of the Board being provided for by parliamentary appropriations and cash receipts being deposited to the credit of the Receiver General. Thus, the expenditure and revenue of the Board are included in the accounts of the Government of Canada which are examined and certified by the Auditor General.

## Summary of Expenditure and Revenue

The Statement of Expenditure and Revenue, by Branches, for the year ended March 31, 1962 is attached. Although there has been a steady increase over the years in the cost of the various services provided by the Board, the fees for these services have not been revised since 1920 in the case of weighing services and 1949 in the case of inspection services. As a result, there have been annual deficits for at least the past ten years, as follows:

Year	Excess of Expenditure over Revenue
1961-62 .....	\$ 1,884,151
1960-61 .....	2,221,603
1959-60 .....	1,797,652
1958-59 .....	1,678,100
1957-58 .....	1,738,460
1956-57 .....	1,045,217
1955-56 .....	1,286,277
1954-55 .....	1,122,564
1953-54 .....	779,074
1952-53 .....	443,672

Repeated reference has been made to the situation in previous reports and, as reported last year, the matter also received consideration by the Standing Committee on Public Accounts at its meeting on June 19, 1961. Notwithstanding a recommendation of this Committee, in paragraph 88 of its Fifth Report, 1961, that "steps be taken to bring revenues and expenditures into balance", no increase has yet been made in the fees charged for services provided by the Board.

	<u>\$ 4,885,262</u>	<u>\$ 4,737,519</u>	<u>\$ 147,743</u>

The increase in salaries of \$150,730 is accounted for mainly by the general salary increase granted to civil servants, effective August 1, 1960, being reflected in salary costs for the full year, compared with only eight months in the year ended March 31, 1961. The increase in general expenses resulted from the larger volume of grain handled during the year under review. No charges are included as expenditure of the Board for contributions to the Public Service Superannuation Account, accounting and other services provided by government departments.

## REVENUE

A comparative summary of revenue for the past two years, follows:

	<u>Year ended March 31,</u> <u>1962</u>	<u>1961</u>	<u>Increase</u> <u>(Decrease)</u>
Inspections .....	1,946,579	1,616,111	330,468
Weighing .....	966,982	821,274	145,708
Registrations and cancellations .....	53,801	43,622	10,179
Licenses .....	28,675	28,938	( 263)
Grain appeals .....	3,114	3,495	( 381)
Sundry .....	1,960	2,476	( 516)
	<u>\$ 3,001,111</u>	<u>\$ 2,515,916</u>	<u>\$ 485,195</u>

The fees charged by the Board, for inspections of grain, weighing of grain, registrations and cancellations and appeals from the decisions of inspecting officers are laid down by the Regulations issued pursuant to section 19 of the Canada Grain Act. The fees charged for licenses are determined in accordance with provisions of the Act.

BOARD OF GRAIN COMMISSIONERS FOR CANADA—*Continued*

## INSPECTION AND WEIGHING FEES—\$2,913,561

There was no change in the prescribed fees during the year under review. The increase in revenue from these sources, therefore, reflects the increase in volume of grain handled during the year over the preceding year. In addition to the verification of accounting records pertaining to the fees, total revenue from inspection and weighing was reconciled with the statistical record of volume of grain handled.

## REGISTRATIONS AND CANCELLATIONS—\$53,801

Warehouse receipts are issued by grain elevators and are registered and cancelled in the form required by the Board pursuant to section 27 of the Canada Grain Act. The prescribed fee for registration of warehouse receipts and for cancellation of registration is four cents per thousand bushels in the Western Division and one cent per thousand bushels in the Eastern Division.

## LICENSES—\$28,675

Nine classes of licenses are issued by the Board upon application and payment of the fees required under the Canada Grain Act, as follows:

<u>Class</u>	<u>Section of Act</u>	<u>Fee</u>
Mill Elevator .....	97	\$ 5.00
Public Country Elevator .....	105	5.00
Private Country Elevator .....	105	5.00
Semi-public Terminal .....	123	25.00
Private Terminal .....	123	25.00
Eastern Elevator .....	123	25.00
Commission Merchant .....	144	5.00
Track Buyer .....	148	5.00
Grain Dealer .....	153	5.00

Section 79(3) of the Act requires each applicant to furnish adequate security before a license is issued. The measure of adequacy is defined by Board Minute dated July 28, 1959, promulgated by virtue of section 15(14) of the Canada Grain Act.

For the crop year 1960-61, the last year for which completed figures are available, there were guarantee bonds aggregating \$30,480,135 executed by fourteen accredited surety companies on behalf of licensees. A test of the guarantee bonds revealed that the security was in accordance with the requirements of the Board.

Negotiable securities amounting to \$1,000, held in lieu of guarantee bonds, were examined by us and found in order.

## GRAIN APPEALS—\$3,114

There were 1,125 appeals from the decisions of inspecting officers during the year compared with 1,298 in 1960-61. The Appeal Board sustained the decisions of the inspectors in 1,038 cases and, in accordance with the scale of fees laid down by the Regulations, collected \$3.00 in each case.

## ACCOUNTS RECEIVABLE

Accounts receivable aggregating \$260,603 were outstanding as of March 31, 1962 and of these \$902 remained unpaid on June 15, 1962. These unpaid accounts were applicable to prior years and are now considered uncollectible.

## PRAIRIE FARM ASSISTANCE ACT LEVY

The Prairie Farm Assistance Act, R.S. 1952, c. 213 provides for a levy of one per cent of the purchase price of all grain bought by licensed purchasers of grain. The levy is deducted by the purchasers and remitted to the Board and is deposited to the credit of the Receiver General (for the Prairie Farm Emergency Fund). The amount received and deposited by the Board during the year was \$6,643,837.

My examination of the accounts was facilitated by the co-operation of the officers and employees of the Board, which is acknowledged with appreciation.

## CANADIAN GOVERNMENT ELEVATORS

AUDITOR GENERAL OF CANADA

Ottawa, October 2, 1962.

THE CHIEF COMMISSIONER AND COMMISSIONERS,  
BOARD OF GRAIN COMMISSIONERS FOR CANADA,  
WINNIPEG, MANITOBA.

We have examined the accounts and financial transactions of the Canadian Government Elevators for the year ended March 31, 1962.

Our examination was made in accordance with generally accepted auditing standards and included a general review of the accounting procedures and of the system of internal control, together with such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

With headquarters in Winnipeg, the Canadian Government Elevators comprise five interior terminal elevators located at Moose Jaw, Saskatoon, Calgary, Edmonton and Lethbridge; a terminal elevator at Prince Rupert and a terminal elevator at Port Arthur which, at the present time, is leased to McCabe Grain Company Limited. The elevators are managed and operated by the Board of Grain Commissioners under the provisions of section 166 of the Canada Grain Act and Order in Council P.C. 1372 of August 19, 1925.

For purposes of accounting and financial control, the Canadian Government Elevators function in the same manner as a department of the Government of Canada—expenditures being provided for by parliamentary appropriations and cash receipts being deposited to the credit of the Receiver General. The revenues and expenditures of the Elevators are, therefore, included in the accounts of the Government of Canada which are examined and certified by the Auditor General.

The Balance Sheet as at March 31, 1962 and the Operating Statement for the year then ended are attached as Exhibits I and II, respectively.

A copy of this report is being sent to the Minister of Agriculture for his information.

## OPERATIONS FOR THE YEAR

A comparative summary of the results of operations for the years ended March 31, 1962 and 1961, follows:

	Year ended March 31,	
	1962	1961
Revenue:		
Operating revenue .....	1,981,687	1,984,044
Gain or (loss) of grain on weigh-overs .....	(19,645)	13,463

Net profit for the year, without provision for depreciation on fixed assets .....	<u>\$ 423,766</u>	<u>\$ 504,800</u>

OPERATING REVENUE—\$1,981,687

During the year 25,170,626 bushels of grain were received, an increase of 61.7% over the 15,565,927 bushels in the previous year. The following comparative schedule shows the number of bushels received by each location during the two years:

	Year ended March 31,		Increase (Decrease)
	1962	1961

Total—bushels .....	<u>25,170,626</u>	<u>15,565,927</u>	<u>9,604,699</u>

## CANADIAN GOVERNMENT ELEVATORS—Continued

Extensive grain exports, made during the year from Prince Rupert, largely accounted for the net increase in the number of bushels received and resulted in an increase of 64% in revenue from elevation. There was, however, a reduction of grain stocks held by all elevators during 1961-62 thereby decreasing storage revenue. A decrease in wheat and rapeseed receipts at Calgary and Edmonton reduced revenue from cleaning; however, this decrease was more than offset by the increase in revenues from screenings at Moose Jaw and Saskatoon. A very dry summer in 1961 and the resulting dry crop required considerably reduced drying services than in the previous year. A comparison of the revenues from the various operations of the elevators for the two years follows:

	Year ended March 31,		Increase (Decrease)
	1962	1961	
Storage .....	1,129,311	1,255,767	( 126,456)
Elevation .....	484,360	295,172	189,188
Drying .....	23,045	104,530	( 81,485)
Cleaning .....	158,882	183,976	( 25,094)
Elevator rental .....	94,820	85,194	9,626
Screenings .....	91,123	59,296	31,827
Chopping and sacking .....	146	109	37
Total Revenue .....	\$ 1,981,687	\$ 1,984,044	\$ ( 2,357)

## MISCELLANEOUS REVENUE—\$29,318

The items comprising this revenue, with corresponding amounts for the previous year being shown in parentheses, are as follows: overtime charges—\$18,130 (\$12,328); grade promotion—\$7,251 (\$2,256); rental of equipment, etc.—\$1,775 (\$1,436); lining of freight cars for shipment of rapeseed—\$137 (\$4,994); other—\$2,025 (\$2,773). All the revenue from overtime charges for the year under review, was earned in connection with the loading of boats at Prince Rupert whereas, in the previous year, only \$7,200 was earned at this location from this source.

## EXPENDITURE—\$1,567,594

Parliamentary appropriations provided funds for the expenditures of the Canadian Government Elevators during the year ended March 31, 1962, with results as follows:

	Appropriation	Voted	Expended	Lapsed
31 Operation and Maintenance .....		1,595,740	1,592,476	3,264
32 Construction or Acquisition of Buildings, Works, Land and Equipment .....		3,000	2,897	103
		\$ 1,598,740	\$ 1,595,373	\$ 3,367

Reconciliation of expenditures recorded on a cash accounting basis, under the parliamentary appropriations, with the operating expenditure recorded on an accrual accounting basis, as shown in the Operating Statement (Exhibit II), follows:

Operating expenditure, per Operating Statement (including replacement of worn-out plant and equipment—\$2,408) .....	1,567,594
Add:	
Additions to plant and equipment .....	489
Screenings, purchased for resale .....	24,856
Grains purchased on weigh-overs .....	19,945
	45,290
	1,612,884
Less: Decrease in inventories of stores and small equipment and tools .....	17,511
Expenditure charged to appropriations .....	\$ 1,595,373

## CANADIAN GOVERNMENT ELEVATORS—Continued

The following is a comparative summary of the operating expenditure for the past two years:

	Year ended March 31,		Increase (Decrease)
	1962	1961	
Salaries and wages .....	888,677	838,847	49,830
Maintenance—buildings, plant and equipment .....	362,168	369,016	( 6,848)
Grants in lieu of taxes .....	112,000	114,199	( 2,199)
Power .....	97,722	93,448	4,274
Head Office expenses .....	66,324	57,738	8,586
Other expenses .....	40,703	43,246	( 2,543)
	<u>\$ 1,567,594</u>	<u>\$ 1,516,494</u>	<u>\$ 51,100</u>

In view of the fact that funds for the construction or acquisition of fixed assets are provided by annual parliamentary appropriations, it has not been the practice of the Elevators' management to include provision for depreciation or obsolescence of plant and equipment in the operating costs of the elevators.

In last year's report it was suggested that consideration be given to making annual provision, on a memorandum basis, for amortization of building and equipment costs. Charges for contributions to the Public Service Superannuation Account, accounting and other services provided by government departments might also be included in the Operating Statement. The inclusion of such costs, on a memorandum basis and using techniques similar to those used in developing the information presented at the beginning of the departmental sections in the book of Estimates for 1962-63, would more properly disclose the overall operating results of the Elevators and allow comparison with commercial operations of a nature similar to that of the Elevators.

## LOSS OF GRAIN ON WEIGH-OVER—\$19,645

An official weigh-over of stock of grains in store was made only at Prince Rupert during the year under review. This weigh-over disclosed a net shortage of \$19,141 which, however, represented only .149% of the total grains received during the year. The net sum of minor adjustments in grain balances at other elevators amounted to \$504. During 1960-61, official weigh-overs made at all of the Elevators resulted in a net gain of \$13,463.

## NET PROFIT FOR THE YEAR—\$423,766

The net profit or (loss) of each elevator during the past two years is shown by the following tabulation:

	Year ended March 31,	
	1962	1961
Port Arthur .....	62,736	51,829
Moose Jaw .....	227,726	147,449
Saskatoon .....	229,829	296,207
Calgary .....	( 84,422)	( 54,159)
Edmonton .....	( 90,145)	98,552
Lethbridge .....	( 51,673)	( 22,594)
Prince Rupert .....	129,715	( 12,484)
	<u>\$ 423,766</u>	<u>\$ 504,800</u>

The Lethbridge Elevator sustained its seventeenth consecutive loss. The accumulated deficits during this period amounted to \$618,085 without taking into account depreciation on plant and equipment. During the same period \$43,332 was expended on additional equipment at this elevator.

## Balance Sheet

## ACCOUNTS RECEIVABLE—\$147,446

At March 31, 1962 advances for freight charges on grain received by the Elevators amounted to \$63,514, and sundry accounts for storage, elevation, etc., amounted to \$83,932. These amounts were recovered from owners of the grain during April and May, 1962.

## ACCRUED REVENUE—\$562,338

This amount represents accruals for storage and elevation charges in respect of grain in store at the year-end as evidenced by outstanding warehouse receipts certified by the Registrar of the Board of Grain Commissioners.

CANADIAN GOVERNMENT ELEVATORS—*Continued*

## INVENTORIES—\$192,198

Physical inventories of stores and small tools and equipment were taken by the Superintendents of the several elevators at March 31, 1962, and valued at cost. The screenings on hand, as reported by the Superintendents, and the surplus grain on hand, as evidenced by warehouse receipts, are valued at the prevailing market prices at March 31, 1962.

## FIXED ASSETS—\$12,183,770

This amount represents the original cost of property, plant, equipment and furniture of the Elevators. During the year, additions totalled \$489 compared to \$20,110 in the previous year.

## GRAIN SHORTAGES—\$909

This amount represents the liability of the Calgary elevator for shortages discovered at the weigh-over on February 16, 1961. Permission has been granted by the Board of Grain Commissioners to defer the purchase of these shortages until the stocks have been shipped, in case further adjustment is required at that time.

## GOVERNMENT OF CANADA—ADVANCES FOR WORKING CAPITAL—\$63,514

This is the aggregate of the advances made out of the Consolidated Revenue Fund, in accordance with section 166(3) of the Canada Grain Act, and used to make advances for freight charges on grain received by the Elevators, as previously mentioned.

## PROPRIETARY EQUITY OF THE GOVERNMENT OF CANADA—\$13,021,329

This item in the Balance Sheet (Exhibit I) comprises the cost of fixed assets of the Elevators that have been acquired out of funds provided through parliamentary appropriations aggregating \$12,183,770, together with a surplus of \$837,559.

The equity represented by the cost of fixed assets increased by \$489 during the year by reason of the additions to fixed assets, previously referred to.

The net profit for the year, as shown in the Operating Statement (Exhibit II), amounted to \$423,766 while deposits to the credit of the Receiver General exceeded expenditures by \$481,723. As a result, the balance of surplus decreased by \$57,468.

Since the inception of the Canadian Government Elevators in 1913 there has been an accumulated surplus of revenue over expenditures of \$17,264,480 (without providing for depreciation of fixed assets) applicable to the individual elevators, as follows:

Port Arthur .....	5,529,400
Moose Jaw .....	4,350,268
Saskatoon .....	4,897,054
Calgary .....	1,860,227
Edmonton .....	899,832
Lethbridge .....	( 552,701)
Prince Rupert .....	280,400
	<hr/>
	\$17,264,480
	<hr/>

In my opinion, subject to the foregoing comments in respect of the lack of provision for depreciation on fixed assets and the omission of the cost of certain services provided by other government departments, the attached Balance Sheet gives a true and fair view of the state of the Elevators' affairs as at March 31, 1962 and the related Operating Statement gives a true and fair view of its operations for the year then ended, according to the best of my information, the explanations given to me, and as shown by the books of the Elevators.

The co-operation of the officers and employees of the Elevators during the course of the examination is acknowledged with appreciation.

A. M. HENDERSON,

## CANADIAN BROADCASTING CORPORATION

*A summary of appropriations and expenditures is given in volume I*

The following statements of expenditures and revenues for the Canadian Broadcasting Corporation are only in respect of moneys appropriated by Parliament. The financial statements of the Corporation for the year ended March 31, 1962 are shown in Volume III of this report. As the Department of Transport is responsible for the collection of licence fees in respect of sound broadcasting and television, an account relating to funds derived from that source by the Corporation will be found under the schedule, Deposit and Trust Accounts, in Volume I of this report.

<b>Vote 43 Grant in respect of the net operating requirements of the radio and television services</b> .....	<b>70,418,000</b>
<b>Expenditures</b> .....	<b>(20) \$70,252,273</b>

<b>Vote 44 Grant for the capital requirements, including the replacement of existing capital assets, of the radio and television services</b> .....	<b>9,640,000</b>
<b>Expenditures</b> .....	<b>(20) \$ 6,214,232</b>

The variation of \$3,426,000 indicates that the expenditure was 64.5 per cent of the appropriation. The amount under-expended represents the delays in implementation of various projects included in the appropriation by reason of circumstances outside the control of the Corporation and delays in the completion to payment stage of other projects on which engineering had been completed.

In all cases where capital assistance was given, the titles to the land, buildings, machinery and equipment were vested in the Crown.

The following were in connection with the acquisition of land, the extension of the runway, the purchase and installation of cables, transformers and electrical gear for the power and controls to the arrester gear at Cartierville airport—

Contracts: (1960-61) Highway Paving Co. Ltd., \$618,751; expenditures, \$233,595; to date, \$618,751 (final); Lund Aviation (Canada) Ltd., \$182,073; expenditures, \$182,073 (final).

Acquisition of land: Montee Holdings Co., Montreal, \$160,000; Joseph Remer, Montreal, \$12,500.

Legal fees: Jean P. Bonin, Montreal, \$1,189.

The total unexpended balance of \$1,173,404 arose in the following circumstances:

- |   |         |
|---|---------|
| (a) Capital assistance—Construction, etc. ....  | 100,748 |
| This under-expenditure mainly relates to the project for extension of the Cartierville airport and represents a deferment of expenditure into 1962-63.  |         |
| (b) Capital assistance—Equipment .....  | 229,439 |
| Due to deferment of projects, expenditures will be made in 1962-63.   |         |
| (c) Production capacity .....   | 843,217 |
| Expenditures against the production sharing section of the vote are contingent on how successful Canadian companies are in outbidding United States and other foreign firms in a highly competitive market. Where Canadian contractors were unsuccessful, there was no call for assistance. |         |

### *Special Payments to Provinces*

**Payments to provinces as provided under the Federal-Provincial Tax-Sharing Arrangements Act, c. 29, 1956, as amended . . . . . (24) \$ 503,255,804**

Under the provisions of the Federal-Provincial Tax-Sharing Arrangements Act, 1956, the Minister of Finance was authorized, where applicable, to pay to each province a tax equalization payment, a provincial revenue stabilization payment, and a tax rental payment. Receipt of a tax rental payment was conditional upon a province entering into an agreement with Canada to refrain on its own part and that of its municipalities from the levying of one or more of the following taxes: individual income, corporation income and succession duties. All provinces except Quebec entered into such an agreement, although the agreement with Ontario was limited to the individual income tax field. Equalization and stabilization payments are payable to a province whether it has or has not entered into a tax rental agreement.

**Votes 119 and 709 Payments to the Government of each province, in respect of income tax collected from corporations whose main business is the distribution to or generation for distribution to the public of electrical energy, gas or steam, of amounts computed in accordance with section 6 of The Tax Rental Agreements Act, 1952, as if the last two lines of subsection (1) of that section read as follows: "...ending on the thirty-first day of December, one thousand nine hundred and fifty-nine" . . . . .**

<b>1959 .....</b>		<b>8,000,000</b>
<b>Expenditures .....</b>	<b>(24)</b>	<b>\$ 8,000,000</b>

Term 29 of the Terms of Union of Newfoundland with Canada provided that the Government of Canada would appoint a Royal Commission within eight years from the date of Union to review the financial position of the Province of Newfoundland and to recommend the form and scale of additional assistance, if any, that might be required by the Government of the Province of Newfoundland to enable it to continue public services at the levels and standards reached subsequent to the date of Union, without resorting to taxation more burdensome, having regard to capacity to pay, than that obtaining generally in the Maritime provinces. The Royal Commission reported on May 31, 1958, and recommended additional grants to Newfoundland. The grants are payable for the fiscal years 1957-58 to 1961-62 inclusive.

This item was provided to make available an appropriation to which might be charged small exchange losses which occur when foreign exchange is at a discount in terms of the Canadian dollar and foreign funds tendered in payment of accounts receivable when converted to Canadian funds fall short of producing the required amount. As the cost of collecting these exchange differences may frequently exceed the shortage, the losses where the individual amount involved is not in excess of \$1, were charged to this vote and credited to the appropriate account to cover such shortages.

A This represents superannuation allowances paid to civil servants appointed prior to April 1, 1893, and retired under the provisions of the above Act. Payments to those appointed on or after April 1, 1893, and eligible for superannuation under the above Act, are made from the Public Service superannuation account—see under the schedule, Annuity, Insurance and Pension Accounts, in Volume I of this report and Appendix 3 to this section.

B Under authority of this Act, provision was made for the retirement and payment of allowances, under stipulated conditions, to certain members of the Public Service who were not eligible for annual retiring allowances under the Superannuation and Retirement Act, c. 17, R.S., 1906. Retirements were all effected prior to November 1, 1924, on which date the retirement provisions of the Act expired (c. 69, 1924).

C This Act provides that the Governor in Council may grant to a widow an annual allowance, payable until death or remarriage, of an amount equal to one-fourth of the allowance her husband received under the Superannuation and Retirement Act, c. 17, R.S., 1906, or would have received if, at the time of his death, he had been retired under the Act.

The above authority includes provision for payment to those employees who did not elect to become contributors under the provisions of the Civil Service Superannuation Act, c. 24, R.S. 1927, of the same benefits they would have received if they had remained under the provisions of the United Kingdom Superannuation Acts then in force.

## UNIVERSITY GRANTS

**Payments to the Canadian Universities Foundation for the purpose of making grants to institutions of higher learning, the Federal-Provincial Tax-Sharing Arrangements Act, c. 29, 1956, as amended . . . . . (20) \$19,360,080**

The above Act as amended by c. 13, 1960 authorized the Minister of Finance, with the approval of the Governor in Council, to enter into an agreement with the Canadian Universities Foundation, providing, for any fiscal year commencing on or after the first day of April, 1960, for payment of amounts to the Foundation for the purpose of making grants to institutions of higher learning in any province.

Section 9A of the amending statute authorized the Minister of Finance, for the purpose of grants to institutions of higher learning, to pay to the Canadian Universities Foundation an amount equivalent to one dollar and fifty cents multiplied by the population of each province that was not prescribed. The Foundation distributed the amount according to the terms and conditions of an agreement entered into between the Government of Canada and the Foundation. The Minister of Finance was empowered by the Act to declare a province a prescribed province where in his opinion satisfactory arrangements exist for the payment by the province directly to institutions of higher learning in the province of an amount which is equal or greater than one dollar and fifty cents multiplied by the province's population and where the payment is made on terms and conditions not inconsistent with those contained in the agreement between the Government of Canada and the Canadian Universities Foundation. A prescribed province is entitled to an abatement of one per cent of the corporation income tax. If the value of the abatement exceeds the amount of one dollar and fifty cents multiplied by the population of the province, the amount of the excess is deducted from any payment made to the province under the Federal-Provincial Tax-Sharing Arrangements Act; if the value of the abatement is less than one dollar and fifty cents per capita, an amount is paid to the province which together with the value of the abatement will equal one dollar and fifty cents per capita. For the fiscal year commencing April 1, 1961, Quebec was declared a prescribed province by P.C. 1961-1118. The value of the one per cent corporation income tax abatement to Quebec for 1961 was estimated at \$9,128,444, the university grants of one dollar and fifty cents per capita at \$7,888,816 and a recovery of \$1,239,628 was made from the tax equalization payment payable to Quebec under the Federal-Provincial Tax-Sharing Arrangements Act. A further deduction from the tax equalization payment to Quebec of \$944,085 was made with respect to the 1960 abatement following receipt from the Department of National Revenue of information as to the value of one per cent corporation income tax abatement in 1960 and the receipt from the Dominion Statistician of a revised estimate of the population of the provinces for the intercensal year 1960 occasioned by the decennial census. The revision in the 1960 population figures also involved adjustments with respect to the 1960-61 entitlement paid to the Canadian Universities Foundation on behalf of the universities of the non-prescribed provinces.

## EXCHANGE FUND ACCOUNT

AUDITOR GENERAL OF CANADA

Ottawa, March 12, 1962.

THE HONOURABLE DONALD M. FLEMING,  
MINISTER OF FINANCE,  
OTTAWA.

Sir,

In accordance with the requirement of Section 27(2) of the Currency, Mint and Exchange Fund Act, an examination has been made of the Exchange Fund Account for the year ended December 31, 1961.

The attached certified statement gives a summary of transactions in the Account for the year and the composition of the balance of the Account as at December 31, 1961 together with comparable figures for the previous year.

The Exchange Fund Account was first established by the Exchange Fund Act, c. 60, 1935. It was continued by the Foreign Exchange Control Act, c. 53, 1946, and further continued by the Currency, Mint and Exchange Fund Act, c. 315, R.S. The purpose of the Exchange Fund Account, from its inception, has been "to aid in the control and protection of the external value of the Canadian monetary unit".

Orders in Council P.C. 1961-923 of June 23, 1961 and P.C. 1961-1560 of October 30, 1961 increased by \$400,000,000 to \$2,500,000,000 the amount that may be advanced out of the Consolidated Revenue Fund to the Exchange Fund Account. The amount advanced as at December 31, 1961 was \$2,130,000,000, a net increase during the year of \$233,000,000.

It will be noted from the attached statement that the deficit resulting from the sale and revaluation of the holdings of the Exchange Fund Account amounted to \$45,857,981 at December 31, 1961 which compares with the deficit at December 31, 1960 as follows:

	December 31, 1960	December 31, 1961	Decrease
Net loss on revaluations of gold and foreign currencies reduced by profits on dealings in gold and foreign currencies and securities, since establishment of the Exchange Fund Account in 1935 ....	134,809,095	133,941,299	867,796
Exchange loss or (gain) arising from valuation of United States dollar holdings at the exchange rate of \$1.04-11/32 at December 31, 1961 (\$0.99-21/32 at December 31, 1960) .....	6,168,060	(88,083,318)	94,251,378
Deficit .....	<u>\$ 140,977,155</u>	<u>\$ 45,857,981</u>	<u>\$ 95,119,174</u>

The amount of \$133,941,299 shown in the above comparative summary represents a cost of exchange management over the period since the establishment of the Account, while the amount of \$88,083,318 is the exchange difference due to the United States dollar being at a rate of \$1.04-11/32 Canadian = \$1. U.S. at December 31, 1961.

Reference was made to the deficit of the Exchange Fund Account in paragraphs 91 and 111 of my report to the House of Commons for the year ended March 31, 1961.

Yours faithfully,

A. M. HENDERSON,  
Auditor General of Canada.

#### FISHERIES RESEARCH BOARD OF CANADA

The Fisheries Research Board of Canada, replacing the Biological Board of Canada, was established by the Fisheries Research Board Act, c. 121, R.S., as amended, to have charge of all Federal fishery research stations in Canada and to conduct and have the control of investigations of practical and economic problems connected with marine and fresh water fisheries, flora and fauna, and such other work as may be assigned to it by the Minister.

The research work conducted by the Board includes all phases of the biology of fish stocks—including their reproduction, growth, enemies, behaviour and catchability; it also investigates the physics and chemistry of oceans and lakes as they affect fish production, methods and apparatus for catching fish and other valuable marine organisms, and the handling, processing, chemical composition, nutritive value and utilization of all fishery products.

The Board consists of a chairman and not more than eighteen other members. A majority of the members of the Board, not including the chairman, shall be scientists and the remaining members of the Board shall be representative of the department and the fishing industry. As at 31 March, 1962 the Board was comprised of the chairman, 9 scientific members, 6 members representing the fishing industry and 1 representing the department.

Section 14 of the Act provides that the Board may expend such sums as are necessary for its work from moneys appropriated by Parliament, or from funds received through bequests, donations, the sale of natural history specimens, or from any other source.

## B—UNEMPLOYMENT INSURANCE COMMISSION

The Unemployment Insurance Act, c. 50, 1955, as amended, has a two-fold purpose, namely, the payment of unemployment insurance benefits to insured workers involuntarily unemployed, and the creation of a national employment service to assist employees and employers in the solution of their employment problems. In addition, the Act provides for the establishment of a special account in the Consolidated Revenue Fund to be known as the unemployment insurance fund—see unemployment insurance fund under the schedule, Annuity, Insurance and Pension Accounts, in Volume I of this report. Also see the appendix to this section for the balance sheet of the unemployment insurance fund as at March 31, 1962, and the statement of income and expenditure for the year ended March 31, 1962. The moneys credited to this fund are derived from contributions made by employed persons, employers of such persons and the Government of Canada and are to be utilized only for the payment of unemployment insurance benefits and any other payments permissible under the Act.

## APPENDIX

## UNEMPLOYMENT INSURANCE FUND

AUDITOR GENERAL OF CANADA

Ottawa 4,  
July 17, 1962.THE HONOURABLE MICHAEL STARR,  
MINISTER OF LABOUR,  
OTTAWA.

Sir,

It has been the practice of the Unemployment Insurance Commission to prepare annual financial statements at the close of each fiscal year which are included in the Public Accounts of Canada. In my report to the House of Commons for the fiscal year ended March 31, 1960, I drew attention to the fact that the Commission is not required by statute to submit such annual financial statements to audit. In its report to the House of Commons on July 1, 1961 (Minutes of Proceedings of June 30, 1961, paragraph 82) the Standing Committee on Public Accounts recommended that the preparation of such statements be made a statutory responsibility of the Commission, and that they be required to be reported upon by the Auditor General. Although no change has been made in the Unemployment Insurance Act in this respect since the foregoing recommendation was made, the Commission has submitted its financial statements for the fiscal year ended March 31, 1962 to me for audit and report to you at this time.

In the course of my examination of the financial statements for the year now under review, I find that, in accordance with its past practice in the preparation of its financial statements, the Commission has not taken into account warrants issued by the local offices in the last few days of the fiscal year and not reported to the Treasury Office until April 1962. As a result the position of the Unemployment Insurance Fund as represented by these financial statements has been overstated and the liability for unredeemed warrants understated by an amount of \$2,774,749 at March 31, 1962.

No adjustment has been made for the fiscal year ended March 31, 1962 as the related statistical data had already been compiled and released by the Commission. I am informed, however, that commencing with the current fiscal year to end March 31, 1963, the Commission will correct the practice in question by taking into its accounts, and thus including in its annual financial statements, all warrants issued by all offices up to and including the close of business on the last day of the fiscal year.

Subject to the foregoing qualification, I would report that, in my opinion, the Balance Sheet and the related Statement of Income and Expenditure of the Unemployment Insurance Fund present a fair view of the state of the Fund as at March 31, 1962 and a fair summary of the transactions for the year then ended.

The security holdings of the Fund at September 29, 1961 were taken over by the Minister of Finance on that date at the book value of \$240,453,953 (being the amortized cost to the Fund, with accrued interest) in accordance with the Minister's announcement in his budget speech of June 20, 1961. In return for the securities and an additional outlay of \$7,167, the Fund obtained discharge of its liability to the Government of Canada for loans outstanding of \$99,000,000 and accrued interest of \$2,961,120, and acquired \$138,500,000 of a special issue of Government of Canada non-negotiable bonds bearing interest at 3½% and redeemable at par subject to 30 days prior notice. Of these bonds, \$76,000,000 were redeemed during the year and \$62,500,000 remained on hand at the year end, as shown in the Balance Sheet.

Yours faithfully,

A. M. HENDERSON,  
*Auditor General.*

#### GENERAL

Payments under the Emergency Gold Mining Assistance Act, c. 95, R.S., as amended ..... (20) \$12,413,248

In order to prevent the closing of mines due to increasing cost of equipment, supplies and labour, and thus avoid the resultant hardships on dependent communities, the above Act was passed on May 14, 1948, with payment effective for a period of three years from January 1, 1948. Later amendments to the Act extended the application thereof to the end of 1963.

The amount of assistance payable to the operator of a gold mine under the provisions of the Emergency Gold Mining Assistance Act is calculated by a formula consisting of two factors: the "rate of assistance" which is based on the cost per ounce of gold produced from the mine, and the "assistance ounces" which are a specified proportion of the total ounces of gold produced. Under the formula prescribed for the years 1955, 1956, and 1957, the rate of assistance factor was determined by taking two-thirds of the amount by which the cost per ounce exceeded \$26.50, with a maximum rate of \$12.33 per ounce. The number of assistance ounces was two-thirds of the total gold produced and sold to the Royal Canadian Mint. The amount of assistance payable for the years 1955 to 1957 was the amount obtained by multiplying the rate of assistance by the number of assistance ounces. By an amendment to the act in 1958 the amount of assistance payable to an operator for 1958 and subsequent years is computed by adding twenty-five per cent to the amount obtained by application of the formula. Assistance is restricted to the mines from which the value of gold produced is not less than seventy per cent of the value of the total output of the mine.

Expenditures to date amounted to \$157,934,359, including the balance of \$1,234,912 in Emergency Gold Mining Assistance Holdbacks (see under the schedule, Deposit and Trust Accounts, in Volume I of this report) to provide for payment of holdbacks after final audit.

The following statement shows the payments to mine operators in the current fiscal year and total assistance to March 31, 1962, under the above statutory authority.

The variation between the appropriation and the total of expenditures charged thereto is due mainly to the following: (a) employee vacancy rate was higher than originally forecast; (b) postage—reduction by economies such as restricted use of registered mail and employment of RCAF scheduled flights between Canada and overseas; (c) the need for various and miscellaneous items was less than anticipated.

E. Chambers, Parliamentary Secretary to the Minister, received travelling expenses of \$320, of which \$295 was charged to Vote 232 and \$25 to Privy Council, Vote 315.

The variation between the appropriation and the total of expenditures charged thereto is due mainly to the following: (a) delays in recruitment and filling of vacant positions; (b) a reduction in the number of service personnel seconded to Inspection Services; (c) deliveries of office equipment were slower than anticipated and billings for stationery, supplies and equipment were delayed.

The variation between the appropriation and the total of expenditures charged thereto is due mainly to the following: (a) construction of buildings and works, major contract projects—construction did not proceed as rapidly as anticipated on a new radio receiving station on the east coast and other projects were delayed by site and design difficulties; (b) major procurement of equipment, (i) ships—the rate of progress on some new ships' construction proved to be slower than provided for in the estimates, one major project was deleted from the program and funds provided for final payments on completion of audited costs were not required, (ii) aircraft—unforeseen difficulties were encountered in the procurement of helicopters, (iii) armament equipment—production difficulties, changes in program and reductions in estimated costs resulted in lower expenditures than anticipated.

\*Pay of Regular Force personnel employed full time at cadet training was charged to allotments of Canadian Army (Regular) and General.

The variation between the appropriation and the total of expenditures charged thereto is due mainly to the following: (a) recruitment of military personnel was less than manning forecasts and voluntary attendance on the Special Militia Training Program was below anticipated levels; (b) civilian employee vacancy rate was higher than originally expected, and lessened personnel activity in the Regular Army and in the Militia, reduced the use of the Command Pool authorization and overtime; (c) travel and removal expenses—fewer postings of personnel and less administrative movement; (d) food supplies—reduction as a result of lowered personnel intake; (e) deliveries of technical equipments for the National Survival Warning System were slower than anticipated.

The variation between the appropriation and the total of expenditures charged thereto is due mainly to the following: (a) reduction in the requirement to repair and overhaul airframes and aero-engines because of the advancement of the planned date for the phase-out of the CF100 squadrons in 1 Air Division, Europe; (b) lower maintenance contract costs were experienced in the Mid-Canada Line operations; (c) a decrease in flying activities and a slow down in the SAGE installation program.

**Vote 244** Contributions to infrastructure and military costs of the North Atlantic Treaty Organization and the transfer of defence equipment and supplies and the provision of services and facilities for defence purposes in accordance with section 3 of the Defence Appropriation Act, 1950, not exceeding a total of \$40,798,000 including the present value of defence equipment or supplies or the cost of services made available by the Canadian Forces estimated in the amount of \$24,848,000 and provided by appropriations for those forces in the current and former years in respect of which, notwithstanding subsection (3) of section 3 of the said Act, no amount shall be charged to this appropriation or paid into a special account; provided by this vote

Amount provided for by this vote ..... (20)	\$15,950,000	\$15,950,000	\$11,108,019

The variation between the appropriation and the total of expenditures charged thereto is due to the following: Provision is made in the annual Estimates based on the best forecasts supplied from NATO sources as well as past spending experience; infrastructure projects originally planned for host countries did not progress at the rate anticipated.

- A Payments to Department of Defence Production against contracts for materiel.
- B Transfers of equipment to member nations of the North Atlantic Treaty Organization from Canadian Army holdings, \$3,033,114 and from Royal Canadian Air Force holdings, \$15,606,194.
- C Charges in respect of the Royal Canadian Air Force program of aircrew training of personnel from other member nations of the North Atlantic Treaty Organization based on capitation rates for recurring costs, and capital expenditures as incurred.
- D Military Budgets—Supreme Headquarters Allied Powers Europe and subordinate commands, \$2,506,988.

Infrastructure—During 1961-62 a new payment procedure for infrastructure, called the multilateral compensation method, was implemented. Instead of making contributions to all NATO countries, as was done in previous years, Canada was asked to reimburse specific countries where the largest infrastructure projects were in progress.

Payments were made to: Government of Denmark, \$214,760; Government of France, \$1,197,831; Government of Germany, \$170,088; Government of Greece, \$194,992; Government of Italy, \$40,365; Government of Norway, \$3,386,789; Government of Portugal, \$6,797; Government of Turkey, \$1,405,339; Government of the United Kingdom, \$435,910; Government of the United States of America, \$843,706; Supreme Headquarters Allied Powers Europe, \$692,520.

<b>Vote 247 Grants to the Town of Oromocto, subject to the approval of Treasury Board, for municipal services including the maintenance and operation of schools and to promote the development of the Town .....</b>	<b>2,000,000</b>
<b>Expenditures .....</b>	<b>(20) \$ 1,529,400</b>

The variation between the appropriation and the total of expenditures charged thereto is due to the following: The Department of National Defence pays the amount by which the annual operating costs of the Town of Oromocto exceed the town's annual revenue from all other sources. The sum provided in the estimate covered the outside limits of the possible total grants and the precise amount was approved later by Treasury Board (T.B. 581530, May 25, 1961) following a detailed examination.

<b>Vote 248 Grants to provinces and municipalities for Civil Defence and related purposes .....</b>	<b>4,350,000</b>
<b>Expenditures .....</b>	<b>(20) \$ 3,078,951</b>

T.B. 550237, July 21, 1959, as amended by T.B. 558298, December 30, 1959, prescribed terms and conditions under which grants are available to provinces and municipalities for general civil defence purposes.

The authority provides that the province may submit and recommend a project within the following classifications:

- (i) organization, administration and training expenditures, including training exercises;
- (ii) equipment and clothing, including uniforms, required for administration, training and operations, for which there is normally no peacetime use other than for civil defence;
- (iii) construction and alterations for civil defence purposes; and
- (iv) operational equipment having a peacetime use.

Generally, the province must undertake to: (a) furnish a detailed statement of the cost of the project and the proportion thereof to be provided from provincial or municipal funds, (b) furnish to the Minister from time to time as he may require, reports covering the development of the projects, and (c) maintain adequate records and accounts and afford the Minister every facility for inspection thereof. Payment (within the amount available to a province) is based upon a statement of the actual expenditures during the fiscal year and amounts to: (a) in the case of projects classified as (i), (ii) and (iii) above, an amount not exceeding 25 cents per capita, or 75 per cent of total expenditures on the project, whichever is the lesser, and (b) in the case of a project classified as (iv) above, an amount equal to the amount actually expended by the province. Provision is made for payment in some cases to a municipal civil defence organization rather than to the province.

A statement by provinces follows:

NATIONAL FILM BOARD—*Continued*

AUDITOR GENERAL OF CANADA

Ottawa, June 20, 1962.

THE CHAIRMAN AND MEMBERS,  
NATIONAL FILM BOARD,  
OTTAWA.

We have examined the Balance Sheet of the National Film Board as at March 31, 1962 and the Statement of Income and Expense for the year ended on that date and have obtained all the information and explanations we have required. Our examination was made in accordance with generally accepted auditing standards and included a general review of the accounting procedures and of the system of internal control, together with such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

As disclosed in the note to the financial statements, the Statement of Income and Expense does not include charges for the value of accommodation, contributions to the Public Service Superannuation Account, accounting and other services provided by other government departments to the extent of approximately \$1,026,800.

Subject to the foregoing, we report that, in our opinion, the accompanying Balance Sheet and Statement of Income and Expense present fairly the financial position of the Board as at March 31, 1962 and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

A. M. HENDERSON,  
*Auditor General of Canada.*

NATIONAL GALLERY OF CANADA—*Concluded*

Ottawa, June 30, 1962.

Madam:

The accounts and financial transactions of the National Gallery of Canada have been examined for the year ended March 31, 1962 pursuant to section 9 of the National Gallery Act.

The following financial statements for the year are attached hereto:

Statement of Expenditure .....	Exhibit I
Summary of Purchase Account Transactions .....	Exhibit II
Summary of Special Operating Account Transactions ....	Exhibit III

Exhibit I combines the expenditures paid out of the Parliamentary appropriation for the administration, operation and maintenance of the Gallery with expenditures paid out of the National Gallery Purchase Account and the National Gallery Special Operating Account, but does not include expenditures for the fiscal year of \$12,526.37 relating to the salaries of the staff engaged in the sale of Gallery publications, control and supervision of which was transferred to the Department of Public Printing and Stationery pursuant to Order in Council P.C. 1961-1201 of August 25, 1961. Expenditures relating to these activities for the fiscal year 1960-61, totalling \$11,930.00 have likewise been excluded in order to provide comparable figures for the two fiscal years.

Exhibits II and III set out the balances at the credit of the Purchase Account and the Special Operating Account at \$17,306.47 and \$54,211.10, respectively. These funds are available for expenditure by the Gallery in the financial period commencing April 1, 1962.

In my opinion, the attached financial statements are properly drawn up so as to exhibit true and fair summaries of the expenditures of the Gallery and of the transactions in the Purchase and Special Operating Accounts for the year ended March 31, 1962, according to the best of my information and the explanations given to me and as shown by the books of the Gallery.

Yours faithfully,

A. M. HENDERSON,  
*Auditor General of Canada.*

THE HONOURABLE ELLEN L. FAIRCLOUGH,  
MINISTER OF CITIZENSHIP AND IMMIGRATION,  
OTTAWA.

These grants were established in 1948-49 as a step in the development of adequate health services for the people of Canada. Grants are available to the provinces upon terms and conditions approved by the Governor in Council and upon certification by the Minister that a province has agreed thereto. General conditions which apply to all grants are that projects may be submitted as part of a satisfactory provincial plan or program for the development of the relevant health service, and that the province undertakes to (a) expend the moneys received out of its share of the grant for the development of the approved plan or program; (b) furnish from time to time, reports and statements of expenditure to the Minister covering the development of the plan or program; (c) refund unexpended moneys on completion of any project or at the end of the fiscal year, whichever is earlier; and (d) maintain adequate records and accounts. Payment of grants is based on the submission of audited claims for reimbursement of expenditures made by provincial governments.

The arrangement and conditions of the grants remained substantially the same as in 1960-1961.

A *General Public Health Grant*. This grant is provided to assist the provinces in implementing a plan or program, on a project basis, for extending and improving both provincial and local health services, including the training of personnel and conducting surveys and studies in the public health field. It is conditional upon the provinces undertaking to maintain the standard and extent of general public health services as existed at March 31, 1948.

**Payments to provinces under agreements entered into pursuant to the Hospital****Insurance and Diagnostic Services Act, c. 28, 1956-57, as amended ..... (30) \$283,883,097**

The Act authorizes the Minister, with the approval of the Governor in Council, to enter into an agreement with any province to provide for the payment by Canada of contributions towards the cost of insured hospital and diagnostic services incurred by the province. Agreements have been made with all the provinces and the territories.

The Act provides that Canada's contribution shall be paid in respect of each calendar year and that the amount of the contribution to each province is to be based on a formula which gives consideration to (a) the per capita costs of in-patient services in Canada; (b) the per capita cost of in-patient services in the province; (c) the cost of out-patient services in the province; (d) the proportion of the population of the province entitled to insured services, and (e) the proportion of the year during which an agreement existed. A formula, similar in effect, is prescribed by the regulations for the calculation of monthly advances on account of contributions.

A statement of federal payments to provinces and territories under the Act by fiscal year follows:

**Family allowances payments, Family Allowances Act, c. 109, R.S., as amended (25) \$520,781,193**

The above Act, as amended, provides for payment of monthly allowances for all eligible children under the age of sixteen years who are resident in Canada. For administrative purposes, regional offices of the Family Allowances Division have been established in each provincial capital.

While application for registration of a child for family allowances is made by both parents, the allowances are normally paid to the female applicant, except in most unusual circumstances. There are certain eligibility requirements set out in the legislation including maintenance by the parent, school attendance, etc. The scale of monthly payment for each child is as follows: for children under 10 years of age—\$6 per month; for children from 10 to 16 years of age—\$8 per month. Payment ceases with the payment for the month in which the child reaches the age of 16 years.

Payments of allowances are made under authority of the Act, from unappropriated moneys in the Consolidated Revenue Fund; while the administrative expenses are payable out of moneys appropriated by Parliament for the purpose (Vote 266).

P.C. 5093, August 3, 1945, as amended, authorizes the payment of family allowances for eligible Eskimo and Indian children to the Department of Northern Affairs and National Resources and the Indian Affairs Branch of the Department of Citizenship and Immigration, where it is in the best interests of the child. Disbursements, on behalf of children in respect of whom allowances are paid, are made from the relevant Deposit and Trust Accounts of those departments.

A distribution, by provinces, of payments made to parents or other parties responsible for the maintenance of children eligible for such allowances follows:
